

External Moderation Process: Survey

08 Feb 2018

Thank you for your patience and support while we made changes to the external moderation process in 2017. Ongoing improvements have been made over the year, and we would additionally like to hear from you about:

- what worked well,
- what did not,
- and other improvements you might like,

using this brief online survey for feedback. The survey link is open and will close on Friday 9th March 2018. Please share this [link to the survey](#) with others in your school.
