

Christchurch students and providers

Secondary schools, students and parents

SecQual [S2011/049 Information for ALL schools with students affected by the Christchurch earthquakes](#)

NZQA recognises that the earthquakes are having a significant impact on secondary education in the Christchurch area, and that their effects on individual students and schools are varied.

NZQA will continue to work with schools to ensure that we factor in the differing needs of students and schools and how that might affect students' ability to prepare for and study towards NCEA assessments this year.

NZQA Helpdesk

We have employed a staff member to specifically coordinate issues relating to the Earthquake. Please phone 0800 697 296 or 04 463 4363.

Email chcheq@nzqa.govt.nz

Schools should continue to contact their School Relationship Manager.
