Specific information for individual achievement standards

Standard:	91300
Domain:	Home Economics
Title:	Analyse the relationship between well-being, food choices, and determinants of health
Version:	2
Number of credits:	4

Questions will relate to a scenario provided. The question will require candidates to discuss all dimensions of well-being as stated in the New Zealand Curriculum and to apply the same to the given scenario.

Candidates will be expected to refer to THREE determinants of health from the list below, which are relevant to the given scenario.

- access to healthy foods
- prenatal and early childhood
- social gradient
- social exclusion
- stress

Standard:	91304
Domain:	Home Economics
Title:	Evaluate health promoting strategies designed to address a nutritional need
Version:	2
Number of credits:	4

Candidates will understand health-promotion strategies and what makes them effective, as well as nutrient needs in general (how to maintain a body's healthy state).

Resources provided will include examples relevant to the task.
