Guidance Information

- Unit standards in the People Development and Coordination domain are about engaging with and leading people to achieve outcomes as individuals and teams.
- Assessment must be conducted in a real business context(s) or based on scenario(s) which must reflect the requirements and practicalities for conducting business in Aotearoa New Zealand.

These *requirements and practicalities* must include meeting the requirements of all relevant legislation and should address such areas as the real business or scenario-based context's:

- purpose and goals/objectives,
- future development,
- external operating environment,
- internal processes, accountabilities, and relationships.

The requirements and practicalities of the context(s) provide evidence for this unit standard.

- The real business or scenario-based context(s) and their requirements and practicalities must be sufficiently complex to enable demonstration of the full range of competence for achievement of the outcome, and to meet the descriptors for level 4 in the NZQF Level Descriptors, which are available at www.nzqa.govt.nz.

4 Definitions

Business entity can be an organisation, or a commercial or other enterprise, not necessarily for profit, a community organisation, and can be a discretely managed business unit within a larger organisation.
