

## Subject areas in computing

The table indicates the range of areas covered by unit standards (as at June 2004) from levels one to four in the domains of generic computing, software development – design, software development – multimedia, software development – programming, and system assurance and documentation. The table reflects very broad classifications and is intended as a general guide. You will note that some standards appear in more than one column. Titles and credits for these standards can be found on the NZQA website: <http://www.nzqa.govt.nz/framework/>

***Don't forget to check that your institution/industry has accreditation to assess against specific standards.***

Level	Graphics, presentation & multimedia	Business applications	Systems and hardware	Programming	Computers and people	Internet and web
Level 1	2792	18743		18739		18734 18758
Level 2	5939 5946 5959 5960 5961 5957 5958 5962	2784 2786 2788 2791	2780 2781 2790 5938 5966	5966 18740	2798 5949 5943 6743	5941 5942 15167 15168 15169 18735 18736
Level 3	5940 5956 5963	2785 2787 2789 5947 5953 5954 5955 18756	2783 2797 5951 5965 5967	5954 5967 18741 18749	5950 5968 18745 18746	5969 18737
Level 4	5948 5964	18742 18748	2796 5944 5952 6744 6745	2795 18757	6746	18738
