

Achievement Standard

Subject Reference	Mathematics and Statistics 3.14		
Title	Apply probability distributions in solving problems		
Level	3	Credits	4
		Assessment	External
Subfield	Statistics and Probability		
Domain	Probability		
Status	Registered	Status date	4 December 2012
Planned review date	31 December 2019	Date version published	17 November 2016

This achievement standard involves applying probability distributions in solving problems.

Achievement Criteria

Achievement	Achievement with Merit	Achievement with Excellence
<ul style="list-style-type: none"> Apply probability distributions in solving problems. 	<ul style="list-style-type: none"> Apply probability distributions, using relational thinking, in solving problems. 	<ul style="list-style-type: none"> Apply probability distributions, using extended abstract thinking, in solving problems.

Explanatory Notes

1 This achievement standard is derived from Level 8 of *The New Zealand Curriculum*, Learning Media, Ministry of Education, 2007; and is related to the achievement objectives:

- Investigate situations that involve elements of chance
 - calculating and interpreting expected values and standard deviations of discrete random variables
 - applying distributions such as the Poisson, binomial, and normal in the Statistics strand of the Mathematics and Statistics Learning Area. It is also related to the material in the *Teaching and Learning Guide for Mathematics and Statistics*, Ministry of Education, 2012, at <http://seniorsecondary.tki.org.nz>.

This standard is also derived from *Te Marautanga o Aotearoa*. For details of the *Marautanga* achievement objectives to which this standard relates, see the [Māori version](#) of the standard.

2 *Apply probability distributions in solving problems* involves:

- selecting and using methods
- demonstrating knowledge of concepts and terms

- communicating using appropriate representations.

Relational thinking involves one or more of:

- selecting and carrying out a logical sequence of steps
- connecting different concepts or representations
- demonstrating understanding of concepts;

and also relating findings to a context or communicating thinking using appropriate statements.

Extended abstract thinking involves one or more of:

- devising a strategy to investigate or solve a problem
- identifying relevant concepts in context
- developing a chain of logical reasoning
- making a generalisation;

and also, where appropriate, using contextual knowledge to reflect on the answer.

- 3 *Problems* are situations that provide opportunities to apply knowledge or understanding of mathematical and statistical concepts and methods. Situations will be set in real-life or statistical contexts.
- 4 Methods are selected from those related to:
 - discrete and continuous probability distributions
 - mean and standard deviation of random variables
 - distribution of true probabilities versus distribution of model estimates of probabilities versus distribution of experimental estimates of probabilities.
- 5 Assessment Specifications for this achievement standard can be accessed through the Mathematics and Statistics Resources page found at <http://www.nzqa.govt.nz/qualifications-standards/qualifications/ncea/subjects/>.

Replacement Information

This achievement standard replaced unit standard 5258 and AS90646.

Quality Assurance

- 1 Providers and Industry Training Organisations must have been granted consent to assess by NZQA before they can register credits from assessment against achievement standards.
- 2 Organisations with consent to assess and Industry Training Organisations assessing against achievement standards must engage with the moderation system that applies to those achievement standards.

He Kōrero mō te Whakakapi

Koinei hei whakakapi i te paerewa 5258 me te paerewa paetae 90646.

Tātari Kounga

- 1 Me mātua whakamana ngā Kaituku Akoranga me ngā Whakahaere Whakangungu Ahumahi e te Mana Tohu Mātauranga o Aotearoa ka rēhita ai i ngā hua ka puta mai i ngā aromatawai ki ngā paerewa paetae.
- 2 Ko ngā Kaituku Akoranga me ngā Whakahaere Whakangungu Ahumahi kua mana, ā, e aromatawai ana i ā rātou hōtaka ki ngā paerewa paetae, me uru rātou ki ngā pūnaha whakaōrite e tika ana mō aua paerewa paetae.

Ko te tohutoro ki te Mahere Whakamana, Whakaōritenga hoki
