TŪMAHI TUATAHI: Ngā whakarerekētanga ki tētahi kaupapa here kāwanatanga

Kua whakarārangitia e te Kāwanatanga tana mahere kia whakahoutia Te Ture Whakahaere Rawa (RMA), e ai ki ana rangahau hou e whakaatu ana i ngā tāpiritanga utu o te \$15 000 a ngā ture taiao ki te utu mō tētahi whare hou me te \$30 000 ki te utu mō te hanga whare noho hou.

I hangaia ngā whakahoutanga taumata-teitei hei whakaiti i ngā utu hangatanga me te whakaheke i te kaketanga o ngā utu whare i Aotearoa, ā, e whakapae ana te Kāwanatanga nā ngā utu, ngā tōmuritanga, me ngā pāhekeheketanga i ahu mai i ngā ture e whakahaere ana i te taiao o tēnei whenua.

I kī te Minita Taiao a Nick Smith he mea tino nui te whakatikatika i te RMA hei whakarite i te putanga ā-whare, te whaiutu me te whakatenatena i te tipu o te ōhanga, me te whakahaere anō i te taiao.

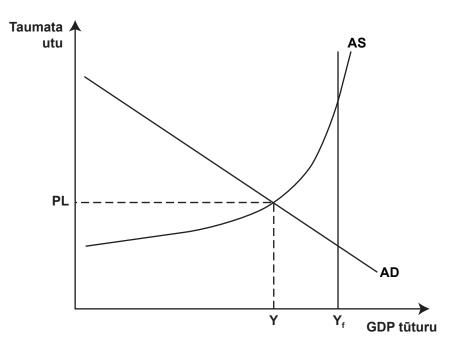

Mātāpuna (he mea urutau): http://www.nzherald.co.nz/property/news/article.cfm?c_id=8&objectid=11389827

Ko ngā whakarerekētanga ki Te Ture Whakahaere Rawa tētahi tauira o tētahi kaupapa here taha-putanga.

(a) Ki te Kauwhata Tuatahi, nekehia tētahi ānau KOTAHI hei whakaatu i te pānga o tētahi kaupapa here taha-putanga pēnei i te whakahou i te Ture Whakahaere Rawa ki te ōhanga whānui.

l tō tuhinga:

- tapaina te nekenga ānau
- tapaina te tauritenga hou

Kauwhata Tuatahi: Te ōhanga o Aotearoa

QUESTION ONE: Changes in a government policy

The Government has outlined its plans to dramatically reform the Resource Management Act (RMA), armed with new research which showed environmental regulations added \$15 000 to the cost of building a new home and \$30 000 to the cost of building a new apartment.

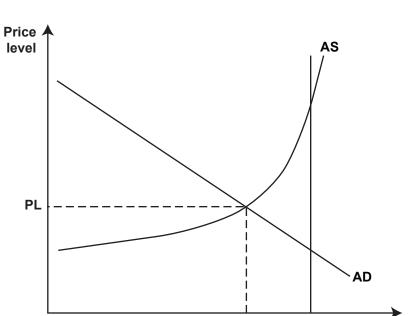

The high-level reforms were designed to reduce building costs and reverse the skyrocketing price of housing in New Zealand, which the Government has blamed squarely on the costs, delays, and uncertainties caused by the laws which govern how this country's environment is managed.

Environment Minister Nick Smith said overhauling the RMA was critical to addressing housing supply and affordability and encouraging economic growth, while also managing the environment.

Source (adapted): http://www.nzherald.co.nz/property/news/article.cfm?c_id=8&objectid=11389827

Changes to the Resource Management Act is an example of a supply-side policy.

- (a) On Graph One, shift ONE curve to illustrate the impact that a supply-side policy such as the reform of the Resource Management Act may have on the macroeconomy. In your answer:
 - label the curve shift
 - label the new equilibrium.

Graph One: The New Zealand economy

Source: quotes from resource material on page 3.

Residential and commercial property activity contributes a significant amount to economic growth and employment.

Along with economic growth, the Government has the goal of full employment.

- (b) Compare and contrast the effectiveness of the reform of the Resource Management Act on both economic growth and full employment. In your answer:
 - explain in detail the impact that a supply-side policy such as the reform of the Resource Management Act could have on Real GDP
 - explain in detail how a supply-side policy such as the reform of the Resource Management Act could create jobs
 - explain the effectiveness of the policy in achieving BOTH economic growth and full employment
 - refer to changes made to Graph One, and to the resource material.

TŪMAHI TUARUA: Te pānga o te hekenga o ngā utu hinu me te heke haere o te ōhanga ā-ao ki te kaute onāianei

He hākerekere te Tirohanga Ōhanga ā-Ao a te IMF

Kua whakaheketia anō e te International Monetary Fund (IMF) ana matapae mō te tiputanga ōhanga ā-ao, me te kī ahakoa ka hīkina te nuinga o te ao i te heke o ngā utu hinu, kāore e tino nui rawa hei pare atu i te tirohanga pāheketanga i Haina.

I tētahi whakamōhiotanga hou ki tana Tirohanga Ōhanga ā-Ao i whakaputaina i te Rātū, i whakaheketia e te IMF tana matapae mō te tau 2015 mō Haina mai i te 7.1 ki te 6.8 ōrau. Mō te tau 2016, he iti ake tana matapae tiputanga o te 6.3 ōrau.

Ka whai pānga tēnei ki te katoa o Āhia me ngā whenua e hokohoko rawa atu ki Haina pēnei i Ahitereiria [me Aotearoa].

I poroa e te IMF tana matapae mō te tiputanga ōhanga mai i te 3.8 ki te 3.5 ōrau i te tau 2015.

Mātāpuna (he mea urutau): http://www.stuff.co.nz/business/world/65250567/imf-global-outlook-more-pessimistic

E kurehu mai ana te hekenga utu arowhānui i te hekenga o ngā utu hinu

Kua whakatārewatia e ngā kaimātai ōhanga a te BNZ ngā tūmanako mō tētahi whakapikitanga pāpātanga moni whaimana mō te Poutūterangi 2016 rā anō, ā, e kurehu mai ana te hekenga utu arowhānui i te hekenga haere tonu o ngā utu hinu.

Ahakoa ko te tirohanga tawhito mō te hekenga utu arowhānui koia te pūtake whakapōturi i ngā mahinga ōhanga, ko te kī a te kairangahau matua a Stephen Toplis kāore e hāngai tēnei ki te āhuatanga onāianei o Aotearoa.

"Ko te āhua nei he tino whiwhinga te hekenga o ngā utu hinu mō ngā kiritaki," tana kī. "He nui ake ngā moni a ngā whare i roto i ō rātau pūkoro hei whakapau kē ki ētahi atu rawa, ratonga hoki – e hiki ake ana i te mahinga anamata, kaua i te whakaheke."

Mātāpuna (he mea urutau): http://www.stuff.co.nz/business/industries/64765449/deflation-looms-as-oil-price-falls

Whakamāramatanga: Ko te **hekenga utu (deflation)** he hekenga tūmau o te taumata utu arowhānui.

QUESTION TWO: The impact of falling oil prices and slowdown in world economy on the current account

IMF World Economic Outlook pessimistic

The International Monetary Fund (IMF) has revised down its forecasts for global economic growth, saying that although lower oil prices will give much of the world a boost, it won't be enough to offset the deteriorating outlook in China.

In an update to its World Economic Outlook released on Tuesday, the IMF revised down its 2015 forecast for China from 7.1 to 6.8 per cent. For 2016, it forecast an even lower growth rate of 6.3 per cent.

This would in turn affect the rest of Asia and countries that sold to China such as Australia [and New Zealand].

The IMF cut its forecast for global growth from 3.8 to 3.5 per cent in 2015.

Source (adapted): http://www.stuff.co.nz/business/world/65250567/imf-global-outlook-more-pessimistic

Deflation looms as oil prices fall

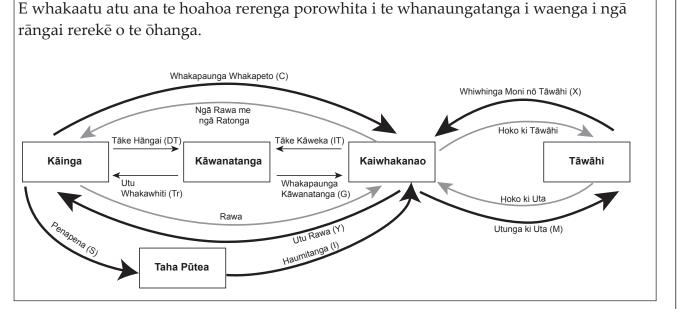

BNZ economists have pushed back expectations of an official cash rate hike until March 2016, with deflation looming as oil prices continue to fall.

While deflation was traditionally seen as causing a vicious cycle of slowing economic activity, head of research Stephen Toplis said that did not apply to New Zealand's current situation.

"The drop in oil prices is turning out to be a windfall gain for consumers," he said. "Households have ended up with extra money in their pockets to spend on other goods and services instead – boosting, rather than contracting, future activity."

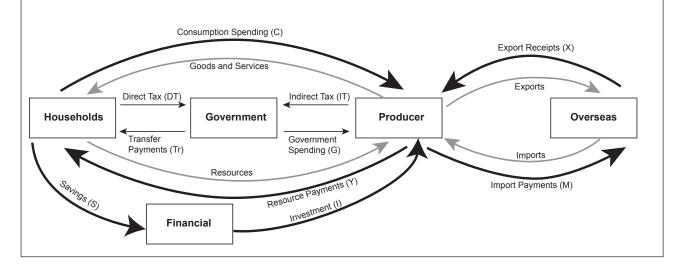

Source (adapted): http://www.stuff.co.nz/business/industries/64765449/deflation-looms-as-oil-price-falls

Definition: **Deflation** is a persistent decrease in the general price level.

- (a) Whakamāramahia taipitopitotia he pēhea te pā mai o te hekenga o ngā utu hinu ki te hekenga utu arowhānui.
 I tō whakautu, me kōrero mō ngā rerenga tūturu hāngai me ngā rerenga moni hāngai mai i te hoahoa rerenga porohita hei whakamārama:
 - i te pānga o ngā hekenga utu hinu ki te rāngai whakanao
 - he pēhea te pānga ki te rāngai whakanao e pā mai ai pea ki te hekenga utu arowhānui.

The circular flow diagram below illustrates the relationship between different sectors of the economy.

- (a) Explain in detail how falling oil prices could lead to deflation.
 In your answer, refer to the relevant real and money flows from the circular flow diagram to explain:
 - the impact of falling oil prices on the producer sector
 - how the impact on the producer sector could result in deflation.

He hoko hinu ki tāwāhi, ki uta hoki a Aotearoa engari he nui ake te hinu e hokona mai ki uta tēnā i te hokona ki tāwāhi.

- (b) Whakatauritehia te pānga o te hekenga o ngā utu hinu me te heke haere o te ōhanga ā-ao ki te whāinga ōhanga whānui o tētahi kaute taurite onāianei.
 I tō whakautu, me whakamahi ngā rerenga moni me ngā rerenga tūturu mai i te hoahoa rerenga porowhita hei whakamārama taipitopito:
 - i te pānga o te hekenga o ngā utu hinu ki te whārite rawa, te whārite ratonga, me te kaute onāianei
 - i te pānga o te heke haere o te ōhanga ā-ao ki te whārite rawa, te whārite ratonga, me te kaute onāianei
 - he aha te take ka nui ake te pānga o te heke haere o te ōhanga ā-ao ki te kaute onāianei tēnā i te hekenga o ngā utu hinu.

12

New Zealand both imports and exports oil, but it imports far more than it exports.

- (b) Compare and contrast the impact falling oil prices and a slowdown in the world economy will have on the macroeconomic goal of a balanced current account.
 In your answer, use money flows and real flows from the circular flow diagram to explain in detail:
 - the impact falling oil prices will have on the balance on goods, the balance on services, and the current account
 - the impact the slowdown in the world economy will have on the balance on goods, the balance on services, and the current account
 - why the slowdown in the world economy will have a bigger impact on the current account than falling oil prices.

TŪMĀHI TUATORU: Ngā whakapaunga kiritaki me te hurihanga pakihi

E whakaatu ana ngā whakapaunga kāri hokohoko i te pikitanga iti

I whakapikihia e ngā tāngata o Aotearoa ā rātau whakapaunga ki ngā kāri nama me ngā kāri tāwere i te Hakihea, me ngā whiwhinga mai i ngā kākahu, ngā rawa o ia rā, me ngā ratonga manaakitanga ...

 $M\bar{a}t\bar{a}puna \ (he\ mea\ urutau):\ http://www.nzherald.co.nz/business/news/article.cfm?c_id=3\&objectid=11386314$

He tohu ngā taumata whakapaunga kāri tāwere i te māiatanga o ngā kaiwhakapeto.

(a) Tātaitia, mā te whakamahi i te tātai kaiwhakarea whakapaunga 1 - MPC, te rerekētanga ki te Whakanaonga Tapeke ki Uta (GDP) mēnā ka piki ngā whakapaunga kaiwhakapeto mā te \$200 miriona me te aha ka penapenahia e ngā kāinga o Aotearoa te 6 orau o ā rātau moni whiwhi. (Me whakaawhiwhi to whakautu ki te \$ miriona tata rawa.)

(b) Whakamāramahia taipitopitotia nā te piki o te whakapaunga kaiwhakapeto o te \$200 miriona i puta ai te rerekētanga ki te GDP i tātaitia e koe. I tō tuhinga, me whakapuaki kōrero mō te kaiwhakarea whakapaunga.

ASSESSOR'S USE ONLY

QUESTION THREE: Consumer spending and the business cycle

Retail card spending shows slight rise

New Zealanders increased their spending on debit and credit cards in December, with gains in apparel, consumables, and hospitality ...

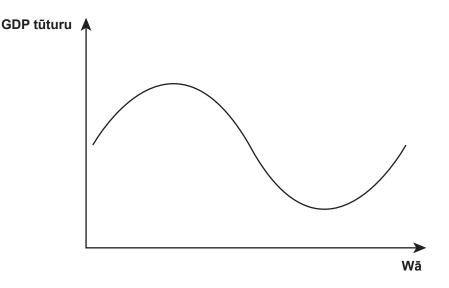

Source (adapted): http://www.nzherald.co.nz/business/news/article.cfm?c_id=3&objectid=11386314

Levels of credit card spending are an indicator of consumer confidence.

(a) Calculate, using the spending multiplier formula $\frac{1}{1 - MPC}$, the change in Gross Domestic Product if consumer spending increased by \$200 million and New Zealand households save 6 per cent of their income. (Round your answer to the nearest \$ million.)

(b) Explain in detail how an increase in consumer spending of \$200 million can lead to the change in GDP you have calculated. In your answer, refer to the spending multiplier.

- (c) Whakatauritehia te pānga o tētahi pikitanga o te whakapaunga kaiwhakapeto ki te whāinga ōhanga whānui o te pūmautanga utu i te wā o tētahi pāheketanga ōhanga ME tētahi wāhanga whakahauora ōhanga HOKI o te hurihanga pakihi. I tō tuhinga:
 - āta tautohua tētahi pāheketanga ōhanga ME tētahi whakahauora ōhanga ki te Kauwhata Tuarua
 - whakamāramahia taipitopitotia te pānga o tētahi pāheketanga ōhanga ki ngā taumata utu
 - whakamāramahia taipitopitotia te pānga o tētahi whakahauora ōhanga ki ngā taumata utu
 - whakamāramahia taipitopitotia mēnā he nui ake te pānga o te pikitanga o te whakapaunga kaiwhakapeto ki ngā taumata utu i tētahi pāheketanga ōhanga, i tētahi whakahauora ōhanga rānei.

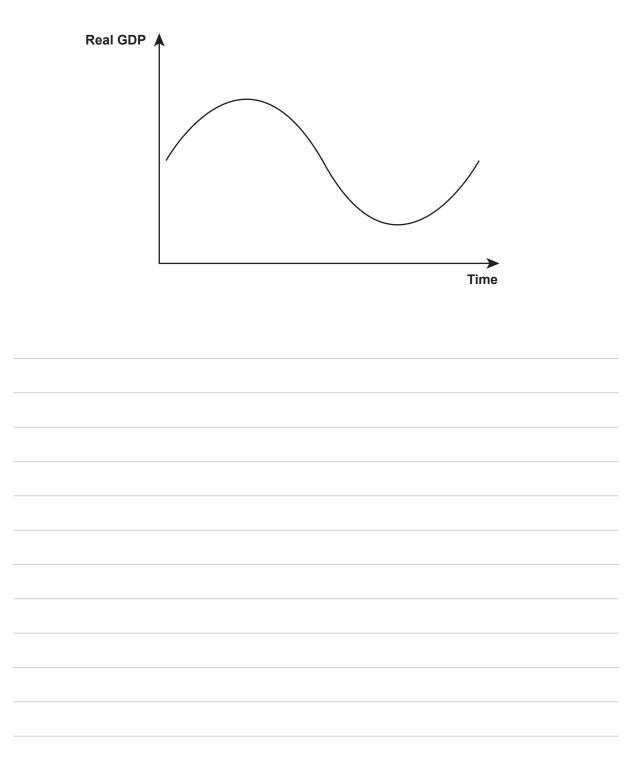

Kauwhata Tuarua: Te hurihanga pakihi o ngā mahinga ōhanga

MĀ TE KAIMĀKA ANAKE (c) Compare and contrast the impact an increase in consumer spending will have on the macroeconomic goal of price stability during BOTH a recession phase AND a recovery phase of the business cycle.

In your answer:

- clearly identify a recession AND a recovery on Graph Two
- explain in detail the impact of a recession on price levels
- explain in detail the impact of a recovery on price levels
- explain in detail whether an increase in consumer spending is more likely to have a bigger impact on price levels in a recession or a recovery.

Graph Two: The business cycle of economic activity
