ASSESSOR'S USE ONLY

**QUESTION ONE: 要不要上大学? (Does he need to go to university?)**

Read Text A on page 2 of the resource booklet.

What decision has Li Xiaopeng made for his future? Do you think this is the right decision or not? Use information from the text to support your answer.

Xiaopeng is not going to Uni next year because he believes that it will be too costly for his parents, too much fees. He doesn't want to burden his parents a lot. Since they do not work in a very high paying job. He is also very unclear about what to study in the university, essentially being uninformed. He also believes not every one needs to attend Uni since he's seen successful people who ~~do~~ never want to Universities. His parents, especially his mom is not supportive of this since the successful ones are just the few lucky ones. He highly likely wouldn't be the case. But also they have enough money for ~~the~~ him to attend University. She thinks he will have a better life after attending University. ~~To me~~ I think going to Uni will be better for his future job opportunities and life since a degree would get you a seriously high paying job. It will be super suitable for his future. Universities would also give him a good socialising opportunity. He will be able to make more friends. His family also wants and has been longing for him to go to a university. Him going there will surely make his family proud. So no, it's not the right decision to not attend Uni. Most successful people have a degree.

## QUESTION TWO: 网课 (Online lessons)

Read Text B on page 3 of the resource booklet.

(a) What problems do the teachers have?

Lack ~~is~~ of motivations from the students causing students to slack off their assignments and not attending their classes. So students just aren't able to attend due to not having accessible internet at home. Some students develop depression caused by the ~~so~~ sudden unhealthy isolations.

(b) Are there any solutions to the problems? Use information from the text to support your answer.

So students might not own any computers, so ~~the~~ ~~the~~ ~~Wang~~ school would lend laptop to them. Mr Wang also suggested posting assignments online and students will make a time for it. Even if their schedules makes them miss the online classes. Also have to do a daily check up on the students mental health and physical health.

### QUESTION THREE: 中文周 (Chinese Language Week)

Read Text C on page 4 of the resource booklet.

How have the students decided to celebrate Chinese Language Week and why? Use information from the text to support your answer.

Sam suggested that they'll teach a sentence in Chinese to other non-Chinese classmates every day. They'll all attend a contest on Friday to test out and the winner gets to eat dumplings as the prize. Lucy said Sam's idea is great. She also suggested teaching them the language and the culture too. Because Linda said that even though NZ has a large Chinese diaspora and immigrant population a lot of NZers still don't understand the Chinese culture, so it's important. They & Cameron's grandpa thinks Maori Culture is important, but he would like to hear Sam's opinion on why Chinese culture is important. So Sam said that making Kiwis understand Chinese culture more would help the economic friendship between China and NZ to be stronger and easier to befriend each other socially. They had also suggested introducing other Chinese food to the other non-Chinese students. They also want to learn about the Maori New Year, in exchange let the Kiwis learn about Chinese New Year to increase the bond and knowledge about each other's cultures. They've eventually come up with teaching others about the language, culture, food and festivals to Kiwi students to get them to understand the China further, which will bring social and economical and diplomatical benefits.

## Merit Exemplar 2022

Subject	L3 Chinese		Standard	91536	Overall grade	14
Q	Grade	Annotation				
1	M5	The candidate showed clear understanding of most of the text, but not unambiguously. There was no implied meaning. The justification was based on the candidate's personal experience, not the textual evidence.				
2	A4	The candidate showed general understanding.				
3	M5	The candidate showed clear understanding of most of the text with an implied meaning, but not unambiguously.
