National Certificate in Seafood Vessel Operations (Factory Trawler Technician) (Level 4)

Level 4

Credits 152

Purpose

This is an introductory qualification for people wishing to enter the seafood industry as a Factory Trawler Technician.

The qualification comprises a compulsory and three elective sections. The compulsory section covers the essential knowledge and skills required by new entrants to this sector of the industry. It includes occupational health and safety practice, basic responsibilities of a seafood industry worker, legislative compliance for seafood processing, operation and maintenance of equipment and tools, and sea survival and sea safety.

The elective sections provide candidates with the flexibility to choose standards relevant to the supplementary skills required within their own workplace.

This qualification provides recognition for the basic skills required to enter a training programme leading to the National Diploma in Seafood Vessel Operations (Factory Trawler Technician) (Level 6) [Ref: 0843].

Requirements for Award of Qualification

Award of NQF Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided in section 7 of the New Zealand Qualifications Authority (NZQA) *Rules and Procedures* publications available at <http://www.nzqa.govt.nz/ncea/acrp/index.html>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.

Transition Arrangements

Version 2

Version 2 was issued following a review of the qualification. Changes were made to ensure the qualification met industry requirements, was current and fit for purpose.

Changes to structure and content

- Title changed to incorporate the level of the qualification
- Credit total has increased from 128 to 152
- Compulsory standard 15677 has been replaced by standard 20168
- Compulsory standard 16707 and Elective 2 standards 16706 and 16708 have been replaced with standards 25184, 25183, and 25185 respectively
- The structure of Elective 2 has been changed to allow candidates to choose a pair of standards related to either fish skinning (Set A) or fish mincing (Set B).
- Standard 23901 has been added to the compulsory section and standards 23900 and 23902 have been added to Elective 2 to cover knowledge and skills required for seafood processing equipment
- Titles, levels, and credits have been updated to reflect the results of standard reviews.

For detailed information see Review Summaries on the NZQA website.

People currently working towards version 1 of this qualification must transfer their results to this version of the qualification unless they gained credit for standard 15677 before it expired in December 2004. Candidates with credit for standard 15677 may either complete the requirements for version 1 or transfer their results to this version of the qualification.

This qualification contains standards that replace earlier standards. For the purposes of this qualification people who have gained credit for the expiring standards are exempt from the requirement to gain credit for the listed standards – see table below.

Credit for	Exempt from
15677	20168
16706	25183, 23900
16707	25184, 23901
16708	25185, 23902

It is not intended that anyone is disadvantaged by this review, and the above arrangements have been designed for a smooth transition. However, anyone who feels they have been disadvantaged may appeal to the New Zealand Industry Training Organisation – see address below.
