

National Certificate in Community Recreation (Aquatics) (Level 4)

Level 4

Credits 66

This qualification is **expiring**. The last date to meet the requirements is 31 December 2013.

Purpose

This qualification recognises the skills and knowledge required for leading aquatic recreation programmes, activities or facilities in the community. It provides candidates the opportunity to study aquatic recreation leadership and specialty areas including pre-hospital care and workplace training. There is an additional emphasis on maintaining safety in an aquatic environment, through risk management, safety, and swimming pool water treatment standards. This represents the skill sets and knowledge required of team leaders and senior operational staff working in the aquatic recreation industry more closely.

The National Certificate in Community Recreation (Aquatics) (Level 4) [Ref: 0938] contains the standards required for the National Pool Lifeguard Award, and includes electives that recognise broad skills in the provision of aquatic recreation services including health and safety management, emergency response, leading teams and workplace training and development, and water treatment.

This qualification builds on from and shares some common standards with the National Certificate in Community Recreation (Aquatics) (Level 3) [Ref: 0937]. It shares some common standards with and may lead onto the National Certificate in Community Recreation (Programme and Event Management) (Level 4) [Ref: 0939].

Requirements for Award of Qualification

Award of NZQF National Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided on the New Zealand Qualifications Authority (NZQA) website: <http://www.nzqa.govt.nz/qualifications-standards/standards/standards-exclusion-list/>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.
