

## National Certificate in Painting with optional strands in Wall Coverings, Spray Techniques, Specialised Coatings, and Industrial Coatings

<b>Level</b>	<b>3</b>
<b>Credits</b>	<b>116</b>

This qualification is **expiring**. The last date to meet the requirements is 31 December 2014.

### Purpose

This qualification is awarded to people who have demonstrated competence in Painting. Completion of any of the strands in Wall Coverings, Spray Techniques, Specialised Coatings or Industrial Coatings is optional.

The qualification is designed to recognise the skills and knowledge required to competently carry out painting and/or decorating works in a safe and professional manner. The certificate is designed for those wishing to work in the painting and decorating industry. The core National Certificate in Painting recognises the underpinning knowledge and key skills required of people working in the painting industry. The four optional strands allow for areas of specialisation and further skill development.

Holders of the National Certificate in Painting will be able to work with a trade level of knowledge for painting. Optional strands provide additional skills within the scope of the strand awarded. The qualification is intended to promote professional standards for the industry and to provide a means of recognising current competency and/or prior learning for those already working in the industry.

It is anticipated an additional qualification will be established that will recognise a range of business and management skills required for supervisors or managers to maintain a successful painting and decorating operation.

### Replacement Information

This qualification has been replaced by the National Certificate in Painting and Decorating (Level 4) [Ref: 1696].

This qualification replaced the National Certificate in Painting and Decorating with strands in Specialised Coatings, Industrial Coatings, and Decorating [Ref: 0021] in December 2003.

## Credit Range

	Core Qualification	Wall Coverings Optional Strand	Spray Techniques Optional Strand
Level 2 credits	35	-	-
Level 3 credits	51	3	20
Level 4 credits	30	26	-
Minimum totals	116	29	20
Level of qualification	3	4	3

	Specialised Coatings Optional Strand		Industrial Coatings Optional Strand	
	Compulsory	Elective	Compulsory	Elective
Level 2 credits	-	-	-	-
Level 3 credits	-	-	-	0-2
Level 4 credits	20	5-10	24	5-10
Minimum totals	20	5	24	7
Level of qualification	4		4	

## Requirements for Award of Qualification

### Award of NZQF National Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided on the New Zealand Qualifications Authority (NZQA) website: <http://www.nzqa.govt.nz/qualifications-standards/standards/standards-exclusion-list/>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.

## Summary of Requirements

- Compulsory standards

The following strands are optional

- Wall Coverings Optional Strand
- Spray Techniques Optional Strand
- Specialised Coatings Optional Strand
- Industrial Coatings Optional Strand

## Detailed Requirements

### Compulsory

The following standards are required

#### Planning and Construction > Construction Trades > Carpentry

ID	Title	Level	Credit
13053	Erect scaffolds up to five metres on site	3	4

#### Planning and Construction > Construction Trades > Carpentry Theory

ID	Title	Level	Credit
13016	Demonstrate knowledge of timber and metal scaffolds up to five metres	3	2

#### Planning and Construction > Painting and Decorating > Decorating

ID	Title	Level	Credit
98	Reduce exposure to health and safety hazards in painting, decorating, and coating	2	5
1067	Describe the components, properties, and possible defects of residential surface coatings	4	14
1068	Prepare colour schemes	4	7
1071	Describe, select, use, and maintain paint rollers	2	8
1073	Describe, select, use, and maintain paint brushes	2	8
1079	Apply surface coatings to new and previously coated timber and reconstituted wood surfaces	3	11
1080	Apply surface coatings to new and previously coated cement and plaster surfaces	3	9
1082	Produce broken colour and multicolour effects and blend colours on building surfaces	4	9
8488	Reglaze residential window and door frames	3	8
19672	Prepare building surfaces by burning off and using liquid strippers	3	8
19673	Prepare building surfaces by waterblasting and machine sanding	2	8

#### Planning and Construction > Painting and Decorating > Industrial Coatings

ID	Title	Level	Credit
1081	Apply surface coatings to new and previously coated metal surfaces	3	6

## Planning and Construction &gt; Painting and Decorating &gt; Specialised Coatings

ID	Title	Level	Credit
1902	Apply surface coatings to new and previously coated plastic surfaces	3	3

## Planning and Construction &gt; Painting and Decorating &gt; Spray Painting

ID	Title	Level	Credit
99	Appreciate and use colour in paint finishing	2	6

**Wall Coverings Optional Strand**

The following standards are required

## Planning and Construction &gt; Painting and Decorating &gt; Decorating

ID	Title	Level	Credit
1075	Prepare for hanging wallpapers and friezes	3	3
1076	Hang wallpapers and friezes	4	8
1077	Hang specialised wallcoverings	4	10
1078	Hang vinyl wallcoverings	4	8

**Spray Techniques Optional Strand**

The following standards are required

## Planning and Construction &gt; Painting and Decorating &gt; Spray Painting

ID	Title	Level	Credit
97	Apply surface coatings by conventional spray techniques	3	12
100	Apply liquid surface coating by airless spray techniques	3	8

**Specialised Coatings Optional Strand**

Meet the requirements of all of the following sets

- Strand Compulsory
- Strand Elective

**Strand Compulsory**

The following standards are required

## Planning and Construction &gt; Construction Trades &gt; Carpentry

ID	Title	Level	Credit
13064	Use adhesives and sealants on site	4	3

## Planning and Construction &gt; Construction Trades &gt; Carpentry Theory

ID	Title	Level	Credit
13028	Demonstrate knowledge of adhesives and sealants in construction work	4	2

## Planning and Construction &gt; Painting and Decorating &gt; Specialised Coatings

ID	Title	Level	Credit
1064	Apply waterproofing coatings and membranes	4	5
1066	Describe the components, properties, and possible defects of specialised surface coatings	4	5
1069	Apply texture coating systems to building surfaces	4	5

**Strand Elective**

A minimum of 1 standard

## Planning and Construction &gt; Painting and Decorating &gt; Specialised Coatings

ID	Title	Level	Credit
1074	Apply floor coatings and screeds	4	5
2825	Apply thermal/plaster cladding systems to buildings	4	10

**Industrial Coatings Optional Strand**

Meet the requirements of all of the following sets

- Strand Compulsory
- Strand Elective

**Strand Compulsory**

The following standards are required

## Planning and Construction &gt; Construction Trades &gt; Carpentry

ID	Title	Level	Credit
13064	Use adhesives and sealants on site	4	3

## Planning and Construction &gt; Construction Trades &gt; Carpentry Theory

ID	Title	Level	Credit
13028	Demonstrate knowledge of adhesives and sealants in construction work	4	2

## Planning and Construction &gt; Painting and Decorating &gt; Industrial Coatings

ID	Title	Level	Credit
1065	Describe the components, properties, and possible defects of industrial surface coatings	4	5

ID	Title	Level	Credit
1901	Gritblast steel surfaces	4	4

Planning and Construction > Painting and Decorating > Specialised Coatings

ID	Title	Level	Credit
1064	Apply waterproofing coatings and membranes	4	5
1074	Apply floor coatings and screeds	4	5

### Strand Elective

A minimum of 7 credits

Planning and Construction > Construction Trades > Core Construction

ID	Title	Level	Credit
2138	Remove asbestos products	3	2

Planning and Construction > Painting and Decorating > Industrial Coatings

ID	Title	Level	Credit
2514	Apply metal spray coatings to steel surfaces	4	5
2515	Apply coatings to pipelines and underground structures	4	5
2669	Apply fireproofing to structural steel and equipment supports	4	3

## Transition Arrangements

### Version 2

Version 2 was issued to indicate that this qualification is expiring.

This qualification has been replaced by the National Certificate in Painting and Decorating (Level 4) [Ref: 1696].

For detailed information see Review Summaries on the NZQA website.

### Previous versions of the qualification

Version 1 of this qualification replaced the National Certificate in Painting and Decorating with strands in Specialised Coatings, Industrial Coatings, and Decorating [Ref: 0021].

The main differences between the new and the replaced qualification are:

- The compulsory core is a stand-alone qualification at level 3, it includes the requirements of the Decorating strand and new unit standards 19762 and 19763. Minimum credit has increased from 85 credits to 116 credits.

- The Specialised Coatings and Industrial Coatings strands are retained as optional strands, and a further two have been added: Wall Coverings and Spray Techniques, to recognise the specialised skill areas in the industry.
- Details of unit standards 1068, 1071, 1073, 1079, 1080 and 1082 have been updated to reflect their new domain Painting.
- Unit standards 641, 642, 643, 1063, 1070, 1271, 13035, and 13067 have been removed.

This qualification contains standards that replace earlier standards. For the purposes of this qualification, people who have gained credit for the expiring standards are exempt from the requirement to gain credit for the replacement standards – see table below.

Credit for	Exempt from
1072	19672, 19673
2048	8488

Existing trainees may complete the National Certificate in Painting and Decorating with strands in Specialised Coatings, Industrial Coatings, and Decorating [Ref: 0021] and have until the end of December 2005 to do so. Alternatively, they may choose to transfer their existing achievement to the replacement qualification. The last date for award of the replaced qualification is 30 December 2006.

Any candidate who feels they have been disadvantaged by the transition should in the first instance contact New Zealand Painting Contractors Association of Employers Industry Training Organisation (Inc) at the address below.

## NZQF National Qualification Registration Information

Process	Version	Date	Last Date for Assessment
Registration	1	December 2003	December 2014
Review	2	August 2011	December 2014

### Standard Setting Body

Building and Construction Industry Training Organisation  
PO Box 2615  
Wellington 6140

Telephone 04 381 6430  
Fax 04 381 6431  
Email [info@bcito.org.nz](mailto:info@bcito.org.nz)  
Website <http://bcito.org.nz/>

### Other standard setting bodies whose standards are included in the qualification

Building and Construction Industry Training Organisation

Plumbing, Gasfitting and Drainlaying ITO Ltd

## Certification

This certificate will display the logos of NZQA, Building and Construction Industry Training Organisation and the organisation that has been granted consent to assess against standards that meet the requirements of the qualification (accredited).

## Classification

This qualification is classified according to the classification system listed on the Directory of Assessment Standards (DAS) and the New Zealand Standard Classification of Education (NZSCED) system as specified below.

DAS Classification		NZSCED	
Code	Description	Code	Description
1923	Planning and Construction > Painting and Decorating > Painting	040325	Architecture and Building > Building > Painting, Decorating, Sign Writing and Other Finishes

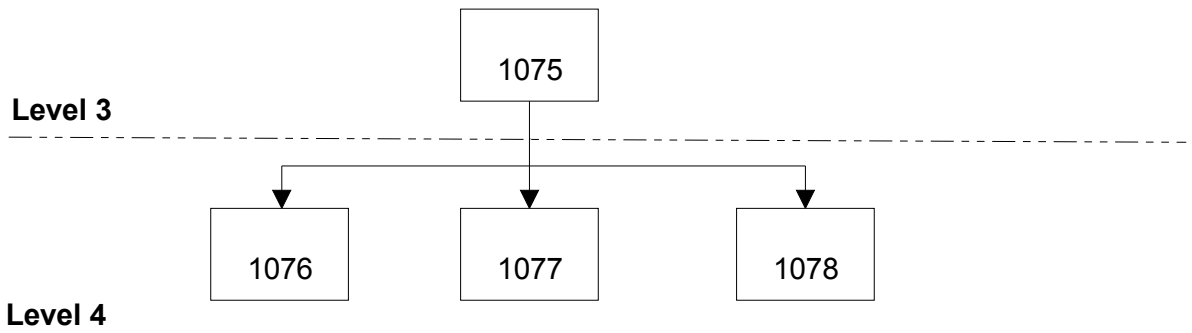

### Quality Management Systems

Providers and Industry Training Organisations must be granted consent to assess by a recognised Quality Assurance Body before they can register credits from assessment against standards. Organisation with consent to assess and Industry Training Organisations assessing against standards must engage with the moderation system that applies to those standards. Consent to assess requirements and the moderation system are outlined in the associated Consent and Moderation Requirements (CMR) for each standard.
