National Diploma in Fire and Rescue Services (Urban Fire and Rescue Operations) (Level 5)

Level 5

Credits 120

Purpose

This qualification is designed for people, including Senior Firefighters, working in urban fire and rescue services in the structural and industrial fire fighting environment, towards achievement of the position of Station Officer. Its achievement requires significant operational experience in the industry.

Competency in the knowledge and skill required for the award of this qualification should provide a thorough grounding for an appointment to the above position.

Some individual programmes may include standards from domains involving predominantly technical and operational skills and knowledge, while other individual programmes may include standards more predominantly involving management skills (eg Unit 3279, *Manage station level duties*) and also from the fields of Business, Education, and Humanities.

Either choice of learning will enable a candidate to work towards the requirements for appointment to the position of Station Officer, while still meeting the requirements of this qualification.

This is a stand alone qualification. However, there are a range of Fire and Rescue Services qualifications at levels 2, 3 and 4 that recognise operational fire fighting skills.

Credit Range

	Set A	Set B	Set C	Set D	Set E
Level 4 credits	-	-	-	0-18	0-30
Level 5 or above credits	40	10	10	12-30	0-30
Minimum totals	40	10	10	30	30

Requirements for Award of Qualification

- A minimum of 120 credits
- Set A – A minimum of 40 credits as specified
- Set B – A minimum of 10 credits as specified
- Set C – A minimum of 10 credits as specified
- Set D – A minimum of 30 credits as specified
- Set E – A minimum of 30 credits as specified

Award of NQF Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided in section 7 of the New Zealand Qualifications Authority (NZQA) *Rules and Procedures* publications available at <http://www.nzqa.govt.nz/ncea/acrp/index.html>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.

Detailed Requirements

Set A

A minimum of 40 credits at Level 5 or above

Field	Subfield	Domain
Community and Social Services	Fire and Rescue Services	Fire and Rescue Services - Generic Fire Fighting
		Fire and Rescue Services - Structural and Industrial

Code	Description	Code	Description
357	Community and Social Services > Fire and Rescue Services	039905	Engineering and Related Technologies > Other Engineering and Related Technologies > Fire Technology and Rescue Services

Quality Management Systems

Providers and Industry Training Organisations must be accredited by a recognised Quality Assurance Body before they can register credits from assessment against standards. Accredited providers and Industry Training Organisations assessing against standards must engage with the moderation system that applies to those standards. Accreditation requirements and the moderation system are outlined in the associated Accreditation and Moderation Action Plan (AMAP) for each standard.
