

National Certificate in Scrap Metal Recycling (Introductory Skills)

Level 2

Credits 51

Purpose

This national certificate recognises the skills and knowledge of an introductory scrap metal recycling worker.

Holders of the qualification will be able to identify and weigh scrap metals, and work safely in the scrap metal industry.

The qualification structure acknowledges the diversity of scrap metal companies and the nature of the work they undertake. To reflect this, the qualification includes elective sections from which people can select skills and knowledge relevant to a specific workplace.

This qualification leads to the National Certificate in Scrap Metal Recycling (Operations) [Ref: 1285] and thereafter to the National Certificate in Scrap Metal Recycling (Nonferrous Purchasing) (Level 5) [Ref: 1286].

Special Notes

This qualification has no restrictions on entry, but it is recommended that candidates who are new to the workforce gain credit for the National Certificate in Occupational Health and Safety (Workplace Safety) (Level 1) [Ref: 1111] prior to entry to this qualification.

Award of NQF Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided in section 7 of the New Zealand Qualifications Authority (NZQA) *Rules and Procedures* publications available at <http://www.nzqa.govt.nz/ncea/acrp/index.html>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.
