

## National Certificate in Scrap Metal Recycling (Nonferrous Purchasing) (Level 5)

**Level** 5

**Credits** 153

### Purpose

This national certificate recognises the specialist skills and knowledge of experienced purchasers working in the scrap metal industry.

The compulsory section recognises the skills and knowledge required to work safely, legally, and knowledgably as a scrap metal grader and buyer.

The qualification includes elective sections to recognise skills and knowledge that are complementary to the role of an experienced scrap metal purchaser.

This qualification builds on the National Certificate in Scrap Metal Recycling (Operations) [Ref: 1285].

### Special Notes

This qualification is for scrap metal purchasers who hold a Secondhand Dealers Licence or a Secondhand Dealers Certificate. Public registers of licence and certificate holders are available at <http://www.justice.govt.nz>.

It is recommended that people entering programmes leading to the award of this qualification possess the skills and knowledge of an experienced scrap metal recycling worker. This might be evidenced by award of the National Certificate in Scrap Metal Recycling (Operations) [Ref: 1285] or the demonstration of equivalent knowledge and skills.

- Elective B – a minimum of 5 credits as specified

**Award of NQF Qualifications**

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided in section 7 of the New Zealand Qualifications Authority (NZQA) *Rules and Procedures* publications available at <http://www.nzqa.govt.nz/ncea/acrp/index.html>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.
