

## National Certificate in Seafood Risk Management (Vessel Operations Compliance) (Level 5)

<b>Level</b>	<b>5</b>
<b>Credits</b>	<b>40</b>

### Purpose

This qualification is for experienced crew who are actively working with legislative compliance for seafood vessel operations at a senior level.

The qualification comprises a compulsory section and an elective section. The compulsory section relates to: producing a Licensed Fish Receiver Return which includes producing purchase invoices, selecting and applying conversion factors to calculate green weight for landed fish; producing monthly returns, explaining the legal framework for production, and explaining the powers of Fishery Officers and rights of individuals when Fishery Officers interact with Licensed Fish Receivers. The elective section gives candidates the flexibility to choose standards relevant to their own role in the workplace and that build on the compulsory section.

This qualification builds on the National Certificate in Seafood Risk Management (Vessel Operations Compliance) (Level 4) [Ref: 1393], and can may lead on to the National Certificate in Seafood Risk Management (Vessel Operations Compliance) (Level 6) [Ref: 1395].

### Credit Range

	<b>Compulsory</b>	<b>Elective</b>
Level 5 or above credits	20	20
Minimum total	40	

### Requirements for Award of Qualification

#### Award of NQF Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided in section 7 of the New Zealand Qualifications Authority (NZQA) Rules and Procedures publications available at <http://www.nzqa.govt.nz/ncea/acrp/index.html>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.

## Summary of Requirements

- Compulsory standards
- Elective – A minimum of 20 credits as specified

## Detailed Requirements

### Compulsory

The following standard is required

Agriculture, Forestry and Fisheries > Seafood > Seafood Risk Management

ID	Title	Level	Credit
19519	Produce a Licensed Fish Receiver Return	5	20

### Elective

A minimum of 20 credits at Level 5 or above

Field	Subfield	Domain
Agriculture, Forestry and Fisheries	Seafood	Seafood Risk Management
		Seafood Vessel Operations

## Transition Arrangements

### Version 2

Version 2 was issued to revise the title of the qualification to better specify the target audience.

Candidates currently working towards version 1 of this qualification may either complete the requirements for that version or transfer to version 2. All new candidates for these qualifications will be enrolled onto version 2.

For detailed information see [Review Summaries](#) on the NZQA website.

It is not intended that anyone is disadvantaged by this revision, and the above arrangements have been designed for a smooth transition. However, anyone who feels they have been disadvantaged may appeal to the Seafood Industry Training Organisation at the address below.

## NQF Registration Information

Process	Version	Date	Last Date for Assessment
Registration	1	July 2008	December 2013
Revision	2	March 2010	N/A

NQF Classification		NZSCED	
Code	Description	Code	Description
2107	Agriculture, Forestry and Fisheries > Seafood > Seafood Risk Management	050702	Agriculture, Environmental and Related Studies > Fisheries Studies > Seafood Harvesting (Fishing)

### Quality Management Systems

Providers and Industry Training Organisations must be accredited by a recognised Quality Assurance Body before they can register credits from assessment against standards. Accredited providers and Industry Training Organisations assessing against standards must engage with the moderation system that applies to those standards. Accreditation requirements and the moderation system are outlined in the associated Accreditation and Moderation Action Plan (AMAP) for each standard.
