National Certificate in Design (Level 2) with strands in Kitchen Design, and Bathroom Design

Level 2

Credits 46-48

Purpose

This qualification is an entry qualification for people who want to work in the kitchen or bathroom design sector.

People entering this qualification may hold the National Certificate in Joinery (Introduction) [Ref: 0385] or the National Certificate in Design (Introductory Skills) (Level 2) [Ref: 0461].

The compulsory section of the qualification covers the knowledge and skills related to solving kitchen or bathroom design problems, building construction, workplace health and safety, providing customer service, and work documents.

The kitchen design strand covers the knowledge and skills related to cabinet installation, surface materials, space planning and kitchen appliances and interpreting a design brief.

The bathroom design strand covers the knowledge and skills related to materials used in bathroom design and interpret a design brief, and plumbing systems and their impact on bathroom design.

This qualification may lead to the National Certificate in Design (Level 4) with strands in Kitchen Design, and Bathroom Design [Ref: 1300].

Credit Range

	Compulsory	Kitchen Design Strand	Bathroom Design Strand
Level 1 credits	3	-	-
Level 2 credits	13	20	18
Level 3 credits	12	-	-
Minimum totals	28	20	18

Requirements for Award of Qualification

Award of NZQF National Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided on the New Zealand Qualifications Authority (NZQA) website: <http://www.nzqa.govt.nz/qualifications-standards/standards/standards-exclusion-list/>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.

Summary of Requirements

- Compulsory standards

One of the following strands is required

- Kitchen Design Strand
- Bathroom Design Strand

Detailed Requirements

Compulsory

The following standards are required

Engineering and Technology > Design > Kitchen and Bathroom Design

ID	Title	Level	Credit

25210	Demonstrate knowledge of space planning and kitchen appliances for use in a kitchen design	2	8

Bathroom Design Strand

The following standards are required

Engineering and Technology > Design > Kitchen and Bathroom Design

ID	Title	Level	Credit
26937	Demonstrate knowledge of materials for use in bathroom design and interpret a design brief	2	12
26938	Demonstrate knowledge of plumbing systems and their impact on bathroom design	2	6

Transition Arrangements**Version 2**

Version 2 was issued following a review.

Changes to structure and content

- Credit total was increased from 44 to 46-48.
- Two strands in Kitchen Design and Bathroom Design were added.
- Unit standards 1277, 2543, 7485, 22607, 24353 and 24361 were removed from the compulsory section.
- Unit standards 497, 26934, 26939 and 26945 were added to the compulsory section.
- Unit standards 25208, 25209 and 25210 were moved from the compulsory section to the Kitchen Design strand.
- Unit standard titles and credits were updated following review.

For detailed information see [Review Summaries](#) on the NZQA website.

People currently working towards version 1 of this qualification may either complete the requirements of that version or transfer their results to this version of the qualification.

Any candidate who feels that they have been disadvantaged by these transition arrangements should contact the Joinery Industry Training Organisation at the address given below.

Other standard setting bodies whose standards are included in the qualification

New Zealand Industry Training Organisation

Certification

This certificate will display the logos of NZQA, the Joinery Industry Training Organisation and the organisation that has been granted consent to assess against standards that meet the requirements of the qualification (accredited).

Classification

This qualification is classified according to the classification system listed on the Directory of Assessment Standards (DAS) and the New Zealand Standard Classification of Education (NZSCED) system as specified below.

DAS Classification		NZSCED	
Code	Description	Code	Description
53	Engineering and Technology > Design	040107	Architecture and Building>Architecture and Urban Environment>Interior and Environmental Design

Quality Management Systems

Providers and Industry Training Organisations must be granted consent to assess by a recognised Quality Assurance Body before they can register credits from assessment against standards. Organisation with consent to assess and Industry Training Organisations assessing against standards must engage with the moderation system that applies to those standards. Consent to assess requirements and the moderation system are outlined in the associated Consent and Moderation Requirements (CMR) for each standard.
