## National Diploma in Seafood Māori (Iwi Fisheries Asset Management) (Level 5)

<b>Level</b>	<b>5</b>
<b>Credits</b>	<b>80</b>

### Purpose

This qualification is for people who are looking to extend their experience, skills and knowledge in working within Iwi Fisheries management contexts. This may include roles that provide strategic governance and/or management of iwi fisheries assets such as directors of asset holding companies, and trustees and/or representatives of mandated iwi organisations.

All of the standards in this qualification are compulsory because they cover knowledge and skills that are essential in understanding the components of Iwi Fisheries Asset Management. These standards cover comparing Iwi Fisheries Asset Management plans; developing and presenting an Iwi Fisheries Asset Management plan; locating, summarising, critiquing, and evaluating fisheries research relevant to an iwi fisheries asset management context; demonstrating knowledge of optimising Iwi Fisheries Assets; and comparing, contrasting, and evaluating the application of tikanga Māori in Iwi Fisheries Asset Management.

This qualification builds on skills and knowledge in the National Certificate in Seafood Māori (Customary Fishing Management) (Level 4) [Ref: 1065], the National Certificate in Seafood Māori (Iwi Asset Management) (Level 4) [Ref: 1474], and the National Certificate in Seafood Māori (Tangata Kaitiaki/Tiaki) (Level 4) [Ref: 1373].

### Credit Range

Level 5 credits	80
-----------------	----

### Requirements for Award of Qualification

#### Award of NZQF National Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided on the New Zealand Qualifications Authority (NZQA) website: <http://www.nzqa.govt.nz/qualifications-standards/standards/standards-exclusion-list/>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.

## Summary of Requirements

- Compulsory standards

## Detailed Requirements

### Compulsory

The following standards are required

Māori > Seafood Māori > Kaupapa Mātaitai

ID	Title	Level	Credit
26843	Compare Iwi Fisheries Asset Management plans, and develop and present an Iwi Fisheries Asset Management plan	5	15

## Planned Review

Any person or organisation may contribute to the review of this qualification by sending feedback to the standard setting body at the above address.

## Certification

This certificate will display the logos of NZQA, the New Zealand Industry Training Organisation and the organisation that has been granted consent to assess against standards that meet the requirements of the qualification (accredited).

## Classification

This qualification is classified according to the classification system listed on the Directory of Assessment Standards (DAS) and the New Zealand Standard Classification of Education (NZSCED) system as specified below.

DAS Classification		NZSCED	
Code	Description	Code	Description

DAS Classification		NZSCED	
Code	Description	Code	Description
394	Māori > Seafood Māori	050702	Agriculture, Environmental and Related Studies > Fisheries Studies > Seafood Harvesting (Fishing)

**Quality Management Systems**

Providers and Industry Training Organisations must be granted consent to assess by a recognised Quality Assurance Body before they can register credits from assessment against standards. Organisation with consent to assess and Industry Training Organisations assessing against standards must engage with the moderation system that applies to those standards. Consent to assess requirements and the moderation system are outlined in the associated Consent and Moderation Requirements (CMR) for each standard.
