

National Diploma in Design (Kitchen or Bathroom Design) (Level 5)

Level 5

Credits 120

This qualification has been **reviewed**. The last date to meet the requirements is 31 December 2019.

Transition Arrangements

Version 2 of this qualification was republished to extend the last date for entry into programmes (enrolment) leading to this qualification from 31 December 2017 to 31 December 2018. The last date for assessment is unchanged.

This qualification has been reviewed and replaced by New Zealand Diploma in Design (Advanced Kitchen Design/Advanced Bathroom Design) (Level 6) [Ref: 3222].

People currently enrolled in programmes leading towards the National Diploma in Design (Kitchen or Bathroom Design) (Level 5) [Ref: 1686] may either complete the requirements of the qualification before the final date for assessment, or transfer to the replacement qualification. The last date of enrolment into programmes leading to this qualification is 31 December 2018. The last date for assessment is 31 December 2019.

For detailed information see [Review Summaries](#) on the NZQA website.

This qualification contained unit standards that have been removed because they either expired or are expiring without replacement. This qualification also contains an expiring unit standard for which a replacement unit standard has now been registered. For the purposes of this qualification, people who have gained credit for the replacement unit standards are exempt from the requirement to gain credit for the expiring unit standards.

National Diploma in Design (Kitchen or Bathroom Design) (Level 5)

Level 5

Credits 120

Purpose

This qualification is intended for experienced people who work in the kitchen or bathroom design sector. It is designed for those working as an experienced kitchen or bathroom designer, or in a joinery company specialising in kitchen or bathroom construction.

The compulsory section of the qualification covers the knowledge and skills related to applying marketing concepts, managing project time, analysing and applying lighting and technology requirements, analysing and applying surface material and construction requirements, applying styles and themes, producing and presenting developed designs, recording information and producing design calculations, applying the principles and elements of design, and designing a kitchen or bathroom to meet special needs.

The elective section of the qualification enables candidates to select unit standards from the Project Management, Systems and Resources Management, Product Design, Professional Practice in Design and Construction Consultancy, and Hospitality Management domains that suit their job roles.

Whilst this qualification does not specifically lead on to any other national qualifications, it may be a pathway to other design or joinery qualifications, for example the National Diploma in Design with strands in Graphic Design, Product Design, and Spatial Design [Ref: 0567], or the National Certificate in Joinery (Craftsperson) [Ref: 0386].

Special Notes

Prerequisite: Prior award of National Certificate in Design (Level 4) with strands in Kitchen Design, and Bathroom Design [Ref: 1300], or demonstrate equivalent knowledge and skills.

Credit Range

	Compulsory	Elective
Level 4 credits	9	-
Level 5 credits	85	0-26
Level 6 credits	-	0-26
Minimum totals	94	26

Requirements for Award of Qualification

Award of NZQF National Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided on the New Zealand Qualifications Authority (NZQA) website: <http://www.nzqa.govt.nz/qualifications-standards/standards/standards-exclusion-list/>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.

Summary of Requirements

- Prior award of National Certificate in Design (Level 4) [Ref: 1300]
- Compulsory standards
- Elective – A minimum of 26 credits as specified

Detailed Requirements

Compulsory

Transition Arrangements

Version 1

This qualification contains standards that replace earlier standards. For the purposes of this qualification, people who have gained credit for the expiring standards are exempt from the requirement to gain credit for the replacement standards – see table below.

Credit for	Exempt from
24686	27280
24687	27281
24688	27282
2069, 2070, 2099, 2104	26944

Other standard setting bodies whose standards are included in the qualification

Hospitality Standards Institute
 InfraTrain New Zealand
 NZQA

Certification

This certificate will display the logos of NZQA, the Joinery Industry Training Organisation and the organisation that has been granted consent to assess against standards that meet the requirements of the qualification (accredited).

Classification

This qualification is classified according to the classification system listed on the Directory of Assessment Standards (DAS) and the New Zealand Standard Classification of Education (NZSCED) system as specified below.

DAS Classification		NZSCED	
Code	Description	Code	Description
53	Engineering and Technology > Design	040311	Architecture and Building > Building > Carpentry and Joinery

Quality Management Systems

Providers and Industry Training Organisations must be granted consent to assess by a recognised Quality Assurance Body before they can register credits from assessment against standards. Organisation with consent to assess and Industry Training Organisations assessing against standards must engage with the moderation system that applies to those standards. Consent to assess requirements and the moderation system are outlined in the associated Consent and Moderation Requirements (CMR) for each standard.
