FIELD Community and Social Services

Revision of *Fire Rescue Services-Structural and Industrial* unit standard 16937

Subfield	Domain	Id
Fire Rescue Services	Fire Rescue Services – Structural and Industrial	16937

The Fire and Rescue Services Industry Training Organisation has revised the standard listed above.

Date new versions published **June 2006**

Planned review date **March 2008**

Reason for the revision

The reason for the revision was to amend an error in the title that occurred when the standard was re-registered in March 2004 following its review.

Main changes resulting from the revision

To correct the title, standard 16937 was published as version 3 with the title: Apply community risk management elements in fire and rescue services.

Impact on existing qualifications

None.
