

**FIELD                    AGRICULTURE, FORESTRY AND FISHERIES****Revision, Reclassification, and Rollover of *Seafood* unit standards**

<b>Subfield</b>	<b>Domain</b>	<b>Id</b>
Seafood	Seafood Generic	19517, 19518, 19519, 19520, 20831, 20832
	Seafood Processing	12316, 17573, 17996, 18403, 21566, 21977
	Seafood Vessel Operations	16559-16564, 21067-21069

The Seafood Industry Training Organisation (SITO) has revised, reclassified, and aligned the review dates of the unit standards listed above.

The reason for this is to maintain the currency of rolled over unit standards until they can be reviewed, and to bring forward the planned review date of unit standard 17573 to match.

**Date new versions published**

**January 2008**

**Planned review date**

**December 2009**

**Reason for the revision and reclassification**

These standards have been reclassified into the Seafood Risk Management domain. The domain was specifically established to allow closer monitoring of standards perceived to carry a high risk factor and have high legislative compliance requirements. This will allow education organisations to concentrate on accreditation requirements aligned to their profiled training and unit standard assessment objectives, and appropriate to their resource capability.

The revision and reclassification has been endorsed by both the Seafood Processing and Seafood Vessel Operations sectors.

**Main changes resulting from the revision**

- All standards have been reclassified into the Seafood Risk Management domain;
- Titles for unit standards 16559, 16560, 20831, 21069, and 21566 have been amended;
- Definitions have been amended for consistency across the whole application and with more recently registered SITO unit standards;
- Legislation and regulations have been amended for currency and accuracy;
- Performance criteria have been updated in accordance with changes made to definitions.

**Impact on existing provider accreditations**

### Impact on Accreditation and Moderation Action Plan (AMAP)

AMAP 0123 has been updated to reflect the change of classification of the standards.

### Impact on existing qualifications

Qualifications that contain the revised standards or classifications are tabled below.

<b>Affected</b>	The qualification lists a revised classification (domain or subfield) in an elective set The qualification lists a standard that has changes to level or credits
<b>Not materially affected</b>	The qualification lists a standard that has a new title The qualification lists a standard that has a new classification

The following SITO qualifications are not materially affected by the changes. They will be updated when they are next reviewed.

Qualification title	Standard in the qualification
National Certificate in Seafood Vessel Operations (Factory Trawler Technician) [Ref: 0842]	16559, 16561
National Diploma in Seafood Vessel Operations (Factory Trawler Technician) [Ref: 0843]	16561
National Certificate in Seafood Vessel Operations (Marine Engineering) (Level 4) [Ref: 1148]	16559, 21067
National Diploma in Seafood Vessel Operations (Marine Engineering) (Level 7) [Ref: 1149]	21067, 21068, 21069
National Certificate in Seafood Vessel Operations (Fishing Technology) [Ref: 1152]	16559
National Certificate in Seafood Vessel Operations (Small Vessel Seafood Harvesting) [Ref: 1154]	16559, 16560, 16561, 19517

## Summary of main changes

All changes are in **bold**.

Subfield      Seafood  
 Domain        Seafood Generic  
**Domain        Seafood Risk Management**

<b>Id</b>	<b>Title</b>	<b>Level</b>	<b>Credit</b>
19517	Complete the unloading documentation on behalf of a Licensed Fish Receiver	3	5
