

FIELD MANUFACTURING**Revision of *Automotive Reglazing* qualification****National Certificate in Automotive Reglazing (Level 3) [Ref: 1249]**

The Joinery Industry Training Organisation has revised the qualification listed above.

Date new version published**March 2008**

The next qualification review is planned to take place during 2010.

Reason for the revision

The qualification has been revised to include a new unit standard developed by the Motor Industry Training Organisation.

Main changes resulting from the revision

Changes to structure and content

- Credit total increased from 94 to 96.
- Standard 24085 was added to the compulsory section.
- Standards 946 and 9677 were updated following review.
- Expiring standard 391 has been removed from Elective A.
- The Collision Repair domain was added to Elective B.

Transition

This qualification contains standards that replace earlier standards. For the purposes of this qualification, people who have gained credit for the expiring standards are exempt from the requirement to gain credit for the replacement standards – see table below.

Credit for	Exempt from
392	21673
880	22798
2035	20498
2629	22799
5469	22803
5739	21673
10713	22798

People currently working towards version 1 of this qualification may either complete the requirements of that version or transfer their results to this version of the qualification.

The last date for assessments to take place for version 1 of the qualification is December 2010.

Any candidate who feels that they have been disadvantaged by these transition arrangements should contact the Joinery Industry Training Organisation at the address given below.
