## FIELD SERVICE SECTOR

# Revision of Crane Operation qualification

National Certificate in Crane Operation with strands in Mobile Crane, Overhead Crane, Tower Crane, and Crawler Crane [Ref: 0116]

Opportunity – The Training Organisation has revised the qualification above.

## Date new version published

March 2011

The next qualification review is planned to take place during 2013.

#### Reason for the revision

The qualification was revised as standard 3790, in the compulsory section of the Overhead Crane strand, was a barrier to completion as some candidates did not have access to a cab controlled overhead crane.

# Main changes resulting from the revision

Changes to structure and content

- The Overhead Crane strand now consists of a Compulsory and an Elective section.
- Standard 3790 from the Compulsory section was moved, and standard 3800 was added, to the new Elective section.
- Standards 6400, 6401, and 6402 were removed from the qualification as they were no longer required.
- The credit total for the qualification was updated from 71-88 to 65-84.

## **Transition**

Candidates may either complete version 4 of the qualification or transfer to version 5.

Training programmes or courses leading to the award of version 5 of this qualification may start as soon as the qualification is registered.

The last date for entry to version 4 is 30 June 2011.

The last date for assessments to take place for version 4 is 31 December 2012.

It is not intended that anyone be disadvantaged by this revision. However, anyone who feels they have been disadvantaged may appeal to the Opportunity – The Training Organisation at the address below.
