# Revision and rollover of *Electrical Engineering* and *Electronic Engineering* unit standards

The ElectroTechnology Industry Training Organisation (ETITO) has completed the revision of the unit standard listed above.

#### Date new versions published

# Planned review date

Summary

The unit standards were revised to update the references to legislation and standards, extend the planned review date to 2014 in order to maintain currency during the Sector Review process, and standardise terms and phrases across the unit standards.

# March 2012

# December 2014

# Main changes

- References to legislation and standards updated.
- The opportunity was taken to standardise terms and phrases across the unit standards.
- The title of unit standard 15870 was changed to future proof the standard.
- The planned review date was amended to December 2014.
- Format was updated to the new template.

# Detailed list of unit standards - classification, title, level, and credits

All changes are in **bold**.

#### Engineering and Technology > Electrical Engineering > Core Electrical

| ID    | Title   | Level | Credit |
|-------|---|-------|--------|
| 750   | Demonstrate knowledge of electrical test instruments and    | 2     | 2      |
|       | take measurements   |       |        |
| 1174  | Disconnect and reconnect fixed wired electrical appliances  | 3     | 4      |
|       | or equipment  |       |        |
| 1178  | Follow safe practices in an electrical workplace            | 2     | 3      |
| 1206  | Demonstrate knowledge of a.c. power and power factor        | 4     | 4      |
| 2017  | Describe and use complex electrical instruments             | 4     | 2      |
| 2031  | Demonstrate knowledge of three-phase theory                 | 4     | 4      |
| 5907  | Work safely with electrical equipment                       | 2     | 1      |
| 5909  | Explain basic atomic principles as applied to the           | 1     | 1      |
|       | electrotechnology industry                                  |       |        |
| 5911  | Explain basic magnetism and electromagnetism as applied     | 1     | 1      |
|       | to the electrotechnology industry                           |       |        |
| 5926  | Demonstrate knowledge of programmable logic controllers     | 4     | 5      |
|       | (PLCs)  |       |        |
| 5929  | Demonstrate knowledge of hazardous areas and their          | 4     | 3      |
|       | electrical requirements                                     |       |        |
| 5930  | Demonstrate knowledge of electrical equipment for use in    | 4     | 2      |
|       | hazardous areas   |       |        |
| 5932  | Demonstrate knowledge of protection of circuits from static | 2     | 2      |
|       | electricity and magnetic interference                       |       |        |
| 6626  | Demonstrate knowledge of electrical and electronic          | 2     | 3      |
|       | components  |       |        |
| 15844 | Select and install flexible cords                           | 2     | 3      |
| 15845 | Draw and explain simple electrical diagrams                 | 2     | 4      |
| 15846 | Demonstrate knowledge of capacitors and semiconductor       | 2     | 3      |
|       | diodes  |       |        |
| 15847 | Demonstrate knowledge of mathematics and mechanics for      | 2     | 4      |
|       | electrical trades   |       |        |
| 15848 | Demonstrate knowledge of safeguards for use with portable   | 2     | 2      |
|       | electrical appliances                                       |       |        |
| 15849 | Perform manual soldering and de-soldering procedures for    | 2     | 2      |
|       | electrotechnology work                                      |       |        |
| 15850 | Demonstrate knowledge of single-phase transformers          | 3     | 3      |
| 15851 | Demonstrate knowledge of electrical safety and safe         | 2     | 3      |
|       | working practices for electrical workers                    |       |        |
| 15852 | Isolate and test low-voltage electrical subcircuits         | 2     | 2      |

| ID    | Title  | Level    | Credit |
|-------|--|----------|--------|
| 15853 | Demonstrate knowledge of alternating current (a.c.) theory       | 4        | 7      |
| 15854 | Draw and interpret electrical diagrams                           | 3        | 3      |
| 15856 | Demonstrate knowledge of the New Zealand electricity             | 3        | 2      |
|       | supply system  |          |        |
| 15857 | Demonstrate knowledge of three-phase transformers                | 4        | 3      |
| 15861 | Demonstrate knowledge of direct current (d.c.) power<br>supplies | 3        | 3      |
| 15862 | Demonstrate knowledge of industrial process control              | 4        | 3      |
| 15864 | Demonstrate knowledge of semiconductor power devices             | 4        | 4      |
| 16407 | Use and maintain hand and power tools for electrical work        | 3        | 4      |
| 18997 | Demonstrate advanced knowledge of capacitance,                   | 5        | 4      |
|       | inductance, and magnetism in direct current circuits             |          |        |
| 18998 | Demonstrate advanced knowledge of alternating current and        | 5        | 10     |
|       | three-phase theory   |          |        |
| 19000 | Demonstrate advanced knowledge of electrical power               | 5        | 7      |
|       | transformers   |          |        |
| 20961 | Demonstrate knowledge of special electrical installations        | 4        | 4      |
| 22721 | Demonstrate and apply fundamental knowledge of electrical        | 3        | 15     |
|       | circuit engineering principles                                   |          |        |
| 22722 | Demonstrate and apply introductory knowledge of electrical       | 4        | 15     |
|       | circuit engineering principles                                   |          |        |
| 22723 | Demonstrate and apply intermediate knowledge of the              | 5        | 15     |
|       | elements of power engineering                                    |          |        |
| 22724 | Demonstrate and apply knowledge of electrical machines           | 5        | 15     |
| 22725 | Demonstrate and apply advanced knowledge of power                | 6        | 15     |
|       | system engineering   |          |        |
| 25070 | Explain the properties of conductors, insulators, and            | 2        | 7      |
|       | semiconductors and their effect on electrical circuits           |          |        |
| 25071 | Demonstrate knowledge of electromotive force (e.m.f.)            | 2        | 3      |
| 25072 | Demonstrate knowledge of electromagnetism theory                 | 2        | 5      |
| 20012 | Demonstrate knowledge of electromagnetism theory                 | <b>4</b> | 5      |

Engineering and Technology > Electrical Engineering > Electric Switchboards

| ID    | Title   | Level | Credit |
|-------|---|-------|--------|
| 14970 | Demonstrate knowledge of electric switchboard components    | 3     | 30     |
|       | and their representation on drawings                        |       |        |
| 14971 | Use and maintain specialised tools and fixings for electric | 3     | 20     |
|       | switchboard manufacture                                     |       |        |
| 14972 | Assemble electric switchboards                              | 3     | 30     |
| 14973 | Wire electric switchboards                                  | 3     | 30     |
| 14974 | Fabricate and install busbars in electric switchboards      | 3     | 20     |
| 14975 | Install earthing systems and shrouding on electric          | 3     | 15     |
|       | switchboards  |       |        |
| 14977 | Demonstrate knowledge of regulations relevant to the        | 3     | 3      |
|       | switchboard industry  |       |        |
| 14978 | Demonstrate knowledge of electric switchboard testing       | 4     | 3      |
| 14979 | Demonstrate knowledge of electric switchboard circuits      | 4     | 5      |
| 14981 | Modify installed electric switchboards                      | 4     | 15     |
| 24608 | Test electric switchboards                                  | 3     | 5      |
| 24609 | Perform compliance testing of electric switchboards         | 4     | 20     |
