Summary of review and consultation process

The review of these qualifications occurred as a result of the scheduled review in December 2015.

A review panel was established to conduct the technical review and development of the New Zealand Certificate in English Language (NZCEL) qualifications. This group consisted of key stakeholders (representation from NZCEL Providers Forum, TESOLANZ, secondary, PTEs, polytechnics, and the national moderator). They were chosen not only for their expertise, but also for their ability to consult with the sector they represent.

This review involved extensive consultation with stakeholders. This included engagement with all parts of the English language sector: secondary, tertiary and community prior to, and throughout, the review process to identify and respond to sector needs and barriers to student success.

Main changes resulting from the review

- Contextual qualifiers were removed from NZCEL Levels 3, 4 and 5 as they are no longer a valid structural option for qualifications under the new NZQF guidelines.
- The existing NZCEL qualifications were retained, and three new qualifications were developed – one qualification at Level 3 and two at Level 4. This new development provides more learning opportunities and contextualisation for academic, community/social and employment purposes.

- Title changes to NZCEL Levels 3 - 5 were made to better reflect the purpose of the qualifications.
- NZCEL Common European Framework of Reference (CEFR) levels were adjusted for consistent progression.
- Graduate profile outcomes were adjusted to align with the new CEFR benchmarks.
- Sufficiency of evidence indicators and other conditions have been removed from the qualification documents and can now be found in the *NZCEL Guiding Document*, available on the NZQA website <http://www.nzqa.govt.nz/qualifications-standards/qualifications/english-language-qualifications>

Transition

Candidates currently enrolled in programmes leading to the current versions of the reviewed qualifications may complete the requirements for those versions or transfer to the new version of the qualifications.

No last date for entry into replaced versions of the qualifications has been specified, but providers need to ensure any candidates enrolled in those programmes after the listing of these qualifications will have sufficient time to complete by the last date for assessment.

The last date for assessment of all previous versions of the reviewed qualifications is 31 December 2019.

It is anticipated that no existing candidates will be disadvantaged by these transition arrangements. However, anyone who feels that they have been disadvantaged may appeal to NQS at the address below.

Appeals will be considered on a case-by-case basis.
