### Element 1

Set up and operate an edge bander in joinery work.

#### Performance criteria

- 1.1 The edge bander is set up in accordance with legislation and manufacturer's specifications.
- 1.2 The material is banded to meet job specifications.

### Element 2

Maintain an edge bander in joinery work.

#### Performance criteria

- 2.1 Edge bander is maintained in working order to manufacturer's specifications.
- 2.2 Any faults are corrected in accordance with manufacturer's specifications and workplace practice.

---

### Please note

Providers must be accredited by NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be accredited by NZQA before they can register credits from assessment against unit standards.

Accredited providers and Industry Training Organisations assessing against unit standards must engage with the moderation system that applies to those standards.

Accreditation requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
