### Special notes

- 1 All workplace practices must comply with current legislation, codes of practice, and documented site safety procedures for personal, product, and worksite safety.
- 2 Legislation and regulations relevant to this unit standard include but are not limited to – Health and Safety in Employment Act 1992; Health and Safety in Employment Regulations 1995.
- 3 Definition  
*fitment* refers to any item that is not part of the base joinery work.

## Elements and performance criteria

### Element 1

Manufacture special fitments.

#### Performance criteria

- 1.1 The units are identified from the working drawings, material quantities are calculated and an order is placed in accordance with workplace practice.
- 1.2 The units are set out to conform to the working drawings and workplace practice.
- 1.3 The units are machined, assembled, and finished to conform to the set-out and specifications.
- 1.4 Attachments are fitted as detailed on the working drawings.
- 1.5 Protective measures to ensure workplace safety are employed in accordance with workplace practice.

---

#### Please note

Providers must be accredited by NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be accredited by NZQA before they can register credits from assessment against unit standards.

Accredited providers and Industry Training Organisations assessing against unit standards must engage with the moderation system that applies to those standards.

Accreditation requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
