### Guidance Information

#### 1 Definitions

*Assessment materials* may include but are not limited to – assessment tasks and/or activities, assessment schedules, assessor briefs, evidence guides, common assessment tasks.

*Stakeholders* includes candidate, assessor and observer. Other stakeholders may include, but are not limited to – employer, supervisor, trainer and standard setting body.

*Standards* are statements of performance with measurable outcomes. Standards may include but are not limited to – NZQF unit standards, other national standards, organisational standards, learning outcomes.

#### 2 Assessment support material for an integrated assessment can be found at:

<http://www.nzqa.govt.nz/providers-partners/assessment-and-moderation/assessment-of-standards/assessment-support-material/assessment-of-learning/>

#### 3 All activities must conform to the procedures and requirements of the relevant standard setting body or quality assurance body.

#### 4 Evidence requirement for this standard is a minimum of two assessments using different standards with a minimum of 4 credits, or equivalent, in total. Where assessors in an industry or sector usually assess single, larger standards, a single assessment of a standard with a minimum of 10 credits could be considered sufficient. Assessment of this single standard must use at least two different assessment methods.

#### 5 It is essential that the assessments providing evidence for this unit standard are real. Simulations should not be used for the assessment of unit standards unless their use is common practice for the type of unit standard being assessed e.g. Emergency response.

- 6 All assessments submitted by the candidate must include evidence of verification by an observer.
- The observer must either;
- hold unit standard 4098 or be able to demonstrate equivalent skills and knowledge in assessment.
  - or be a subject matter expert with experience in assessment.
  - or be a supervisor or manager with experience in assessment.
