Admin Michelle Te Amo (Te Wānanga o Aotearoa)

Apologies N/A

Facilitation Team Shane Edwards (Te Wānanga o Aotearoa), Kieran Hewitson (Te Wānanga o Aotearoa), Tui Marsh (NZQA), Merepaea Manukau (Te Wānanga o Aotearoa)

1 Karakia / Whakatau Te Wānanga o Aotearoa ki Manukau Staff

Welcome address Shane Edwards

- 1.1 Shane outlined the emergency procedures and began the group's introduction session.
- 1.2 Kieran provided a brief overview of the day's agenda.

2 Targeted Review of Qualifications (Tui Marsh)

2.1 Background information about the Targeted Review of Qualifications.

- A targeted review of qualifications (TRoQ) at levels 1-6 was undertaken during 2009 which identified: the qualification system was not understood by learners, parents, employers, and others; the pathways to further education and employment was not clear; the cost of developing qualifications was too high; and the number of duplicate qualifications was too high.
- As such, changes were made during 2010 to the qualification systems which include: simplifying the qualifications system New Zealand Qualifications Framework; ensuring the qualifications are fit for purpose and relevant; and reducing the number of qualifications by removing duplication and proliferation.
- Initially 4600 qualifications sat under the NZQA framework however, TRoQ is aiming to reduce the number of qualifications to 1300 (or reduce by 70%).
- All qualifications will be given a clean slate, and replaced by a new suite of New Zealand qualifications, where programmes will be developed to lead to these new qualifications.
- No one has ownership of these qualifications however; providers will still have ownership to their programmes and are required to uphold maintenance for on-going qualifications reviews.
- The new suite of qualifications will be based on: industry or community workforce **needs**; clear and structured graduate **outcomes**, identified education and employment **pathways**, **collaborative** working relationships; and **flexible** programmes that meet learner needs.

Shane Edwards summarised TRoQ as a review that encompasses the need, and looks at the future of our mokopuna. What can graduates “be, do and know” – skills, knowledge and attributes.

2.2 The different stages of the review:

- Pre-work -gather information to determine: sector workforce needs and skills; stakeholder profiles; and governance and working structures
- Review phase 1 (framework) - prepare and confirm a revised map or ‘suite of qualifications’; prepare new qualifications for pre-approval –
- Review phase 2 - develop further qualification information and submit an application to list qualification on NZQF.

2.3 The new qualifications:

- Qualification details e.g. Title, type, level, credits and NZSCed etc
- Strategic Purpose Statement
- Outcome Statement e.g. Graduate profile, education and employment pathways
- Specification
 - Ensures there is sufficient information for programme developers to meet the graduate profile.
 - Differentiates mandatory and optional conditions for qualification and/or individual outcomes.

3 Māori Studies and Customs Qualifications (Kieran Hewitson)

3.1 Qualifications under this review

- Te Wānanga o Aotearoa and NZQA have made contact with the providers to determine whether or not their qualifications sit, or would like to sit under this review. We have confirmed the following list (refer to appendix A).
- Blue (emitted); Green (added), White (original)
- Justin Heke raised an issue that programmes which have been developed by iwi, hapū, kaumātua, etcetera, lack clear pathways into further study. Bay of Plenty Polytechnic is trying to expand their qualifications so that Māori qualifications can pathway into general/ mainstream qualifications. Kieran Hewitson notes that this is the reason of today’s (think tank) hui – to pathway in and out of Māori Qualification Frameworks.

4 Mātauranga Māori Evaluative Quality Assurance (Tui Marsh)

4.1 Māori Evaluative Quality Assurance (MMEQA) MM EQA began pre 2007 and is a principle based framework; to quality assure Mātauranga Māori qualifications.

- Qualifications are developed using the framework and not an afterthought.
- Recognises valued outcomes for ākongā and whānau, hapū, iwi, and haporī whānau.
- Focuses on advancing and recognising Mātauranga Māori on its’ own merits.
- What good might look and feel like?

Shane Edwards notes on the whiteboard:

2010	EQA	AUDIT	
2012	MMEQA	MM	MMQA (our contribution)

- Discussed. Te Hono o te Kahurangi - anchor off that (perhaps). It may become an (r) evolution.

- The kupu “Kura” - value, scaled. For example, Kahukura, Manukura, Kahurangi, Atakura, Raukura.
 - The word whaka “iro” – knowledge.
 - Rangi
 - Whare
- 4.2
- The Mātauranga Quality Assurance Mark indicates that all requirements for listing on the NZQF have been clearly met; and that it is highly likely to meet the identified needs of the community and advance Mātauranga Māori.
 - A lot of employers in non-Maori areas don’t see a value in these qualifications. Part of our job is to educate others so they are on the same level. Low levels of recognition.
 - Through the misuse and abuse of original intent, the qualifications can be diminished. For example, in Waiariki senior managers asked to take on qualifications as they look good. You would look to articulate your position and to self-determine quality.
 - Need to reframe so they see the social value that comes out of cultural knowledge.

5 Think Tank discussion / Two sections (Shane Edwards)

5.1 “How would you organise them (qualifications) into their framework? “

Those in attendance were asked to think about the following key questions:

- What programmes have similar synergy?
- Could there be cluster groups?
- Are there some common core competencies across this suite of qualifications?
- What is the future need of qualifications in these areas?
- How do we determine the future needs for qualifications?
- What qualifications may we consider contemporary?

(refer to appendix B for feedback)

Shane Edwards Example:

General	Core	Skill competencies across the suite
Te Reo Māori	Communication/ L & N	Study Skills
		Identity
		Leadership of self (low)
		Leadership of others (high)
		Tikanga Skills
		Whanaungatanga

6 Review Overview (Kieran Hewitson)

6.1 Discussion of review make up (Governance group, working group and /or advisory group)

- The currently name for this review is Maori Studies and Customs - if this is not appropriate what do you think it should look like in the future?
- Review is self-funded. Te Wānanga o Aotearoa and NZQA fund the venue and catering costs but the attendees have to fund the travel costs.
- Iwi representation is recommended

- The project leads encouraged the stakeholders to spread the word to allow for greater representation from the motu.
- Given the number of qualifications sitting under Māori Studies and Customs and the Te Reo Māori review, it would be beneficial to have a strong governance group under each review and a strong link or connection between the two reviews.
- A preferred set of attributes or skills are recommended to shape the governance group:
 - Cross section of ages;
 - Sound understanding of Te Reo Māori and Tikanga;
 - Qualification design;
 - Framework understanding;
 - Funding understanding and/or delivery knowledge; and
 - Subject understanding.

7 Communication and Feed-in Strategy (Jeanne Kerr, Kirean Hewitson)

7.1 Kieran Hewitson followed on with a discussion around possible communication strategies for this review.

- Possible communication strategy – utilise the iwi radio stations.
- There is a link on the nzqa website that will allow you to feedback on any think tank, governance group, working group, or advisory group discussions. Also, all information regarding this review can be found at this site <http://www.nzqa.govt.nz/about-us/consultations-and-reviews/tikangamaori/thinktank/>

8 Needs Analysis (Jeanne Kerr)

Jeanne is currently collating the needs analysis for this review and part of this data collection is a survey. There are two surveys one survey is for graduates of qualifications under this review and the other is for stakeholders. Please feel free to forward these surveys one to the appropriate people within your organisation. If you have any further questions please contact Merepaea Manukau Project Manager.

Please complete and / or forward onto graduates within the Māori Studies and Customs review; and all stakeholders involved with their Marae/Iwi and Maori development/Waka/Rongoa areas.

- Link for graduate survey - to be sent to graduates of qualifications within the Maori Studies and Customs review

**Appendix B:****Kākāriki**

The group sectioned their cluster groups by three stages (below), and ranked them based on their level of tikanga (Strong Tikanga = 5 and Poor Tikanga = 1).

Stage 1 – General Tikanga (Hauora, Waka Ama, Rorohiko, Indigenous Research);

Stage 2 – Credits and Levels;

Stage 3 - Need to establish graduate profiles, and develop a framework that caters to that graduate profile.

Core Competencies – Te Reo Māori, Tikanga, and History

Kikorangi

Shane Edwards posed a couple of questions to the group:

- If you could split Te Reo Māori and Tikanga, could you do that?
Answer: Te Reo Tikanga
- Could we create a new understanding of Kura, possibly contemporary qualifications that include tikanga?
- Pre contact, did we have the need for Kura reo? Was the purpose of whare wānanga to acquire language composition?

Where

The group based their qualification clusters on:

- Potential benchmarks that differentiated Te Reo Māori and tikanga programmes;
- Study skills that approved for higher level education;
- Te Reo Māori focused programmes versus tikanga focused programmes; and
- Outcomes (hence the reasoning why Indigenous Research was placed to the side).
- Shane Edwards generated a discussion around a Māori only position - do we translate the programmes to benefit others?
