Find information about a school

You can find out about a school or check on its performance before enrolling your children.

MNA reports

NZQA reviews the assessment practices of secondary schools to ensure assessment is valid, fair, consistent, reliable, accurate and to the national standard.

The reports on these reviews are called 'Managing National Assessment reports' or 'MNA reports'. To read the Report for a specific school, see [Find an MNA report](#).

Secondary school statistics

NZQA also provides open data on how secondary schools perform in NCEA and in other national qualifications.

You can view a variety of reports, going back several years. See [Secondary school statistics](#).

School directory

The Ministry of Education has a 'School Directory' listing all schools. It shows subjects taught, student profile, student achievement, contact details and map location. You can use it to find details of specific schools. See [School Directory](#).

ERO reports

The Education Review Office (ERO) is the New Zealand government department that evaluates and reports on the education and care of students in schools. ERO reports to school boards of trustees on the quality of education provided for students in their school.

ERO also publishes national reports on national educational issues:

Talk to people

One of the best ways to find out about a specific school, is talk to the school, to neighbours and to parents of children who attend the school.
