Level 1 Design and Visual Communication

91065: Produce instrumental paraline drawings to communicate design ideas

Exemplar for Achievement.

This submission communicates information on the exterior form of a cart.

Line intensity is consistent.

The selection of a thinner line weight could have strengthened this submission, to show detail more clearly within smaller components.

NOTE: This submission was photographed, to better communicate the quality of the drawing. This has resulted in some distortion, which was not evident in the original.
