AS 91338

Exemplar D - Achieve

AS91338: Produce working drawings to communicate technical details of a design (4 credits)

Achievement	Achievement with Merit	Achievement with Excellence
Produce working drawings to communicate technical details of a design.	Produce working drawings to clearly communicate technical details of a design.	Produce working drawings to effectively communicate technical details of a design.

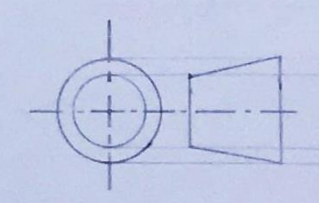

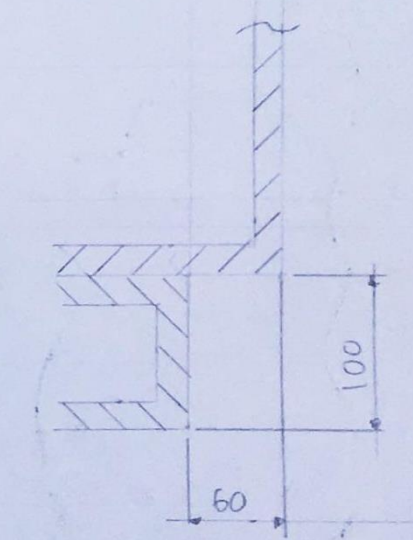

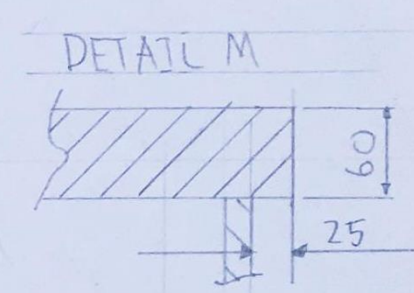

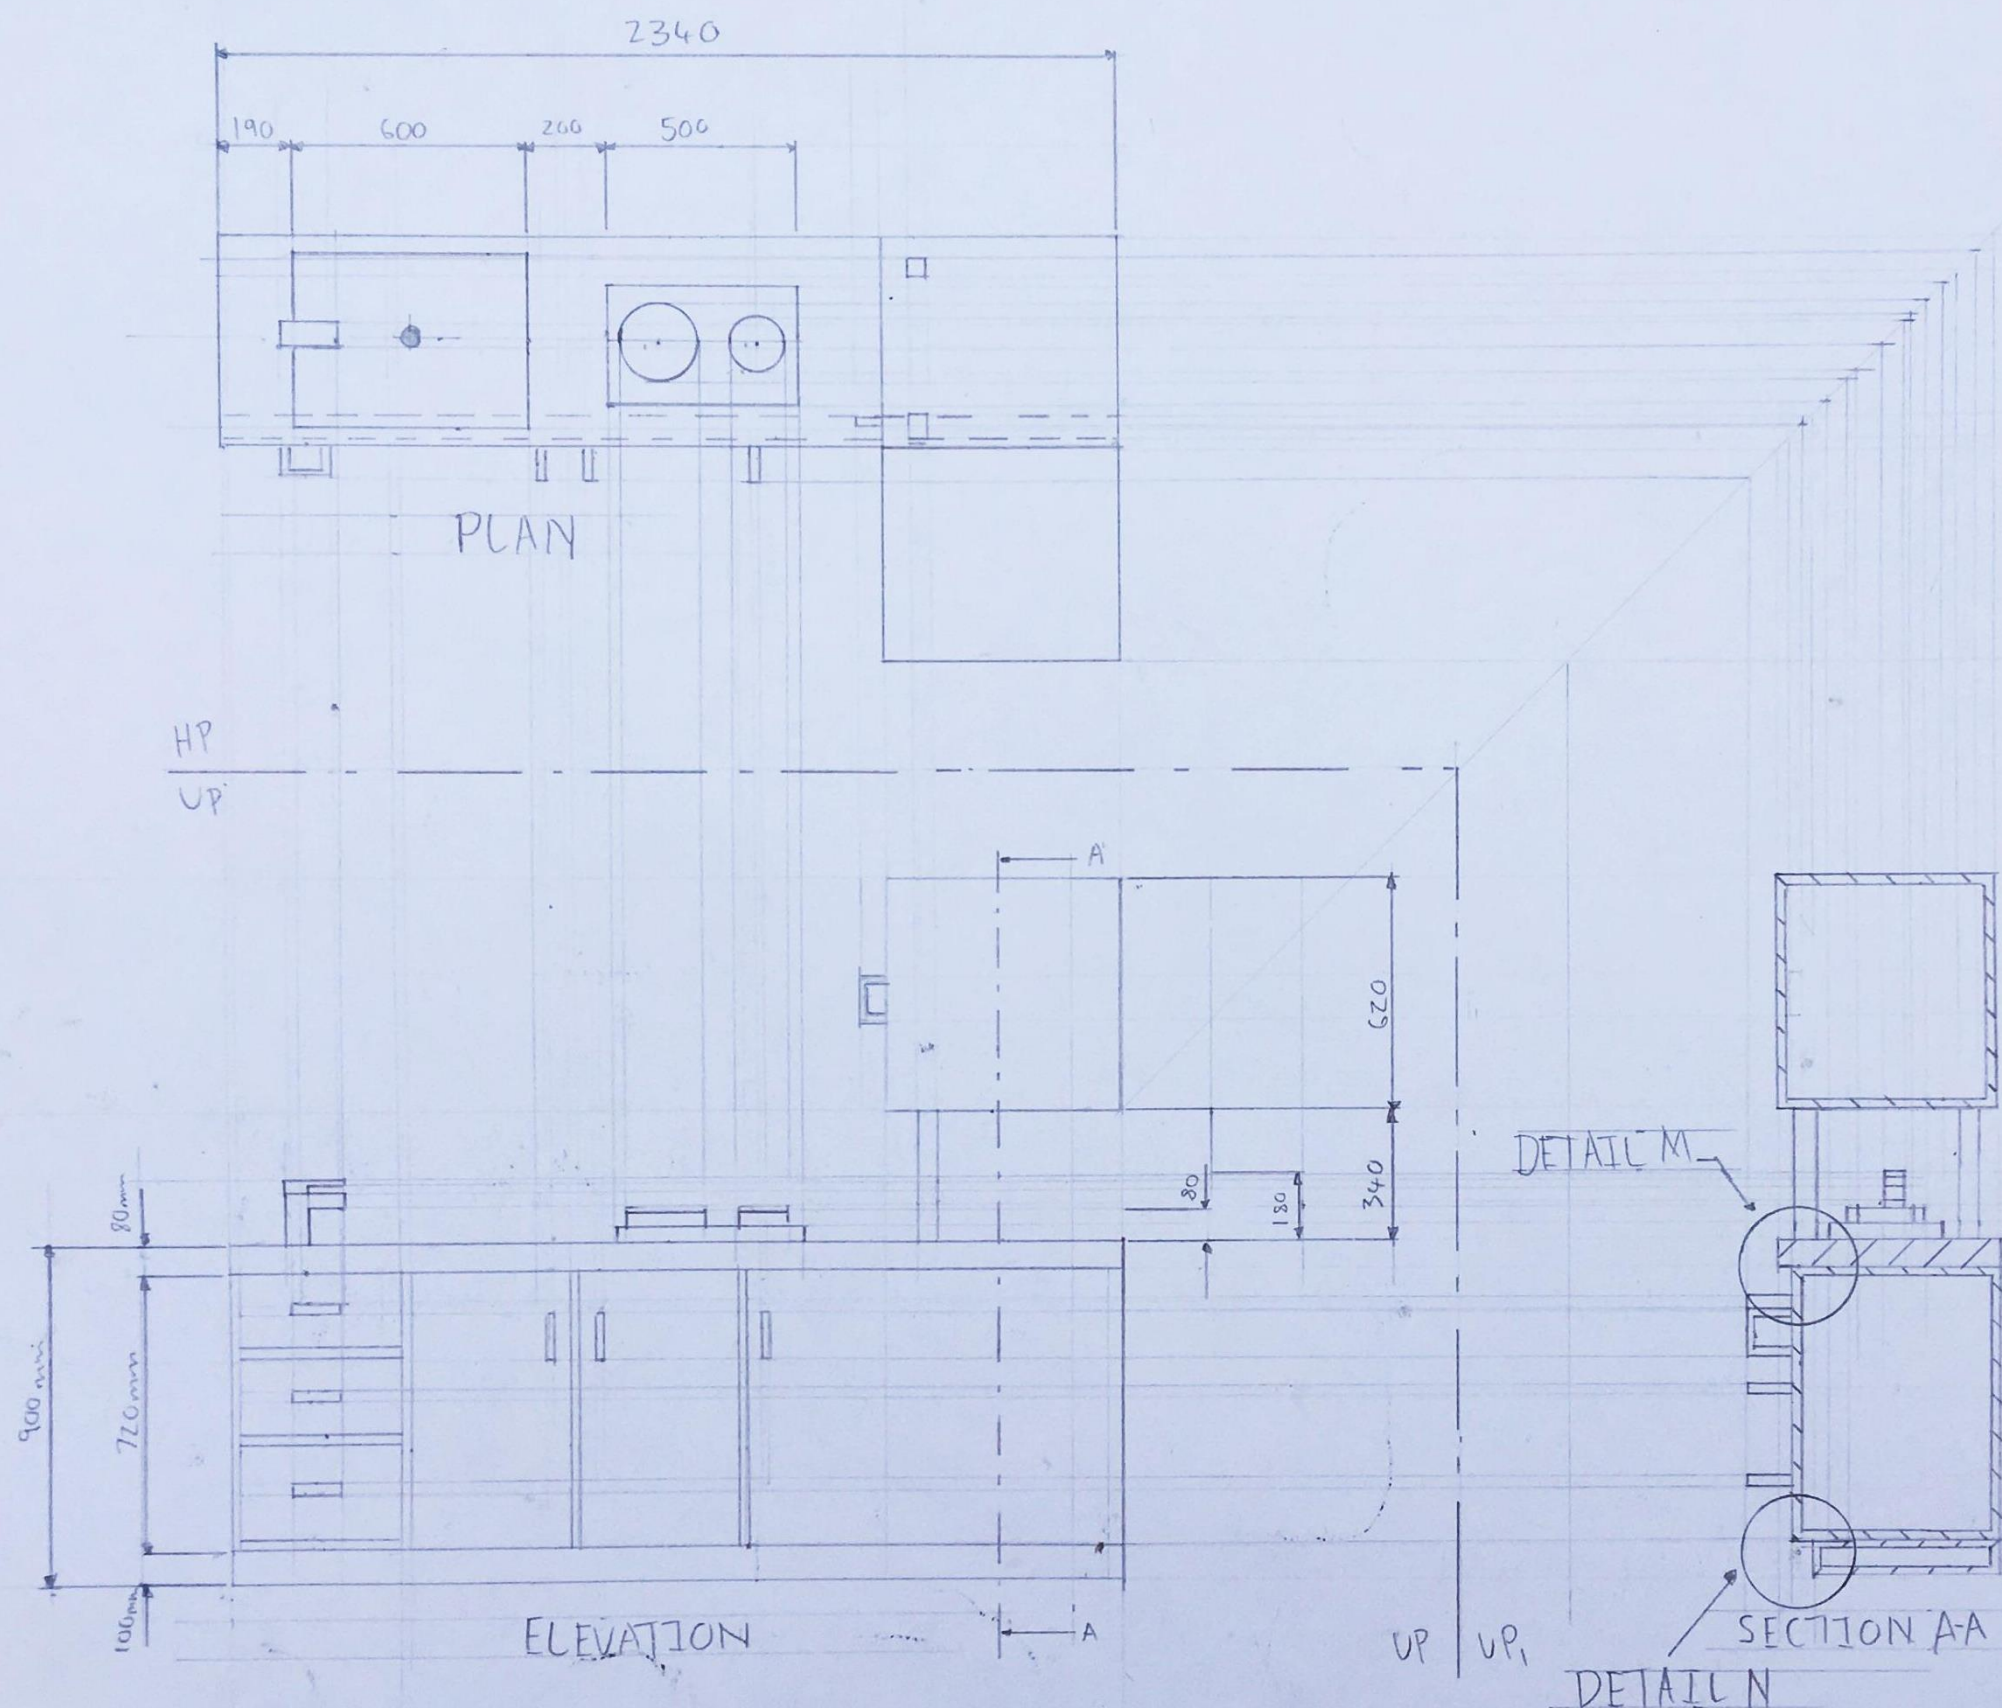

Produce a set of related 2D instrumental working drawings that communicate technical details showing complex visual information .	Produce a set of working drawings that clearly communicate technical details showing complex visual information.	Produce a coherent set of working drawings that effectively communicate technical details showing complex visual information.
Demonstrate an ability to use drawing conventions in a working drawing.	Demonstrate an ability to apply drawing conventions appropriately to working drawings.	Demonstrate an ability to apply drawing conventions appropriately to working drawings.

A

COMMENT:

A set of 2D working drawings has been produced that shows complex detailed visual information. This set of drawings shows a plan, sectional elevation and a sectional end elevation supported by two enlarged details. Views are labelled and referenced to one another. Section A-A communicates the basic construction of the kitchen unit, which is fine for a drawing of this scale. However, the larger details do not add any more technical information than that already shown in the cross section. (They are just enlargements of the cross section). These technical details need to show the construction in more detail to allow the details to be understood more clearly.

Conventions are used and applied appropriately for this type of drawing.
