

Design and Visual Communication AS 91339

Exemplar C - Merit

AS 91339 (2.32): Produce instrumental perspective projection drawings to communicate design ideas (3 credits).

Achievement	Achievement with Merit	Achievement with Excellence
Produce instrumental perspective projection drawings to communicate design ideas.	Produce instrumental perspective projection drawings to clearly communicate design ideas.	Produce instrumental perspective projection drawings to effectively communicate design ideas.
Uses perspective projection drawing techniques to communicate complex visual information.	Uses perspective projection drawing techniques to skilfully communicate complex visual information.	Demonstrate an ability to select select a viewpoint that enables complex visual information of the design to be effectively communicated.
The instrumental perspective drawing shows design features .	The instrumental perspective drawing clearly shows detail of the design features.	The instrumental perspective drawing clearly shows detail of the design features.

Overall level of attainment for 91339
M

COMMENTS:

The perspective principles have been applied and the drawing shows complex visual information.

The view point has been selected to enable effective communication of the design features.

Details of the design features are shown clearly eg: details showing depth to windows and doors. However at this scale more of the features need to be detailed eg: thickness to fascia board, detail of the weatherboards at the front corner of the building. This would show whether they are rusticated or bevel backed weather boards, therefore allowing visual information to be communicated effectively.
