How will spaces be arranged?

- Study
- Office
- Dining
- Living

- I would use high-quality images that are clear and sharp, with high resolution. These can be sourced from reputable stock photo websites or taken by a professional photographer.

- I would use high-quality, high-contrast images that are clear and sharp, with a high resolution. These can be sourced from reputable stock photo websites or taken by a professional photographer.

How will structure support building?

- The structure of a building is not specified, but it could be a steel frame with concrete slabs or a timber frame with straw bale walls. The choice depends on the context and requirements of the project.
