Standard No.	91189	Version	2	
Standard Title	Investigate geological processes in a New Zealand locality.			
Achieved	Merit	Excellence		
Investigate geological processes in a New Zealand locality.	Investigate in depth geological processes in a New Zealand locality.	Investigate comprehensively geological processes in a New Zealand locality.		
Key requirements (list):		A✓	M✓	E✓
Identify the key rock(s) in a named locality.		<input type="checkbox"/>		
Describe the plate tectonic and rock cycle processes that have formed the types of rocks in the locality.		<input type="checkbox"/>		
Describe the erosional processes that have shaped the landforms observed in the locality.		<input type="checkbox"/>		
Explain the plate tectonic and rock cycle processes that have formed the types of rocks in the locality.			<input type="checkbox"/>	
Explain the erosional processes that have shaped the landforms observed in the locality.			<input type="checkbox"/>	
Discuss the link between the plate tectonic processes and the rock cycle processes that have formed the types of rocks in the locality.				<input type="checkbox"/>
Discuss the link between the erosional processes that have shaped the landforms observed in the locality.				<input type="checkbox"/>
Sufficiency statement:				
Achieved	All of A is ticked			
Merit	All of A and M are ticked			
Excellence	All of A, M and E are ticked			
TICK OVERALL GRADE	N	A	M	E
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
