

NCEA Economics Remote Learning and Assessment

In response to the impacts of the COVID-19 virus on teaching, learning and assessment programmes, NZQA is providing guidelines where appropriate in situations of remote teaching, learning and assessment.

All of the internally assessed standards in the subject matrix for Economics are able to be assessed remotely and do not require additional guidelines.

Teaching and learning towards assessment of all externally assessed standards is suitable for remote learning. The current Assessment Specifications for these standards will continue to apply.
