----------------	---

Classification	Construction Trades > Painting and Decorating
-----------------------	---

Available grade	Achieved
------------------------	----------

Explanatory notes

- 1 Legislation and references relevant to this unit standard include – Health and Safety in Employment Act 1992; Resource Management Act 1991; Hazardous Substances and New Organisms Act 1996; available at <http://legislation.govt.nz>; AS/NZS 2311:2009 *Guide to the painting of buildings*, available at <http://www.standards.co.nz/>.
- 2 Definition
Worksite requirements refer to job instructions to candidate on agreed work to be carried out.
- 3 This unit standard must be assessed against in a realistic workplace environment. The candidate must be under realistic time pressures, and use relevant commercial equipment and approved industry techniques.
- 4 Evidence is required of the erection of working platform systems on five different jobs.

Outcomes and evidence requirements

Outcome 1

Plan and prepare to erect working platform systems.

Evidence requirements

- 1.1 Work instructions and operational details are obtained and confirmed in accordance with worksite requirements.

- 1.2 Safety instructions are followed in accordance with worksite and legislative requirements.
- 1.3 Signage and barricade requirements are identified and implemented in accordance with worksite and legislative requirements.
- 1.4 Tools and equipment are selected to meet the job requirements, and checked for serviceability prior to commencement of work in accordance with worksite requirements.
- 1.5 Any environmental requirements are identified in accordance with worksite and legislative requirements.

Outcome 2

Inspect work site for erecting working platform systems.

Evidence requirements

- 2.1 Type of working platform system required is identified in accordance with worksite requirements.
- 2.2 Work area is cleaned of rubbish or unnecessary materials in accordance with worksite requirements.
- 2.3 Risks to other workers, power supply and other services are assessed in accordance with worksite requirements.
- 2.4 Access to erected working platform is planned in accordance with worksite and legislative requirements.
- 2.5 Access to products and tools from the working platform is planned in accordance with worksite and legislative requirements.

Outcome 3

Erect a working platform system.

Evidence requirements

- 3.1 Working platform system is selected for the specific job in accordance with worksite and legislative requirements.
- 3.2 Working platform system components are collected and located at the work site in accordance with worksite requirements.
- 3.3 Working platform is inspected for serviceability in accordance with worksite and legislative requirements.
- 3.4 Working platform is positioned for the work and the platform to be used is in accordance with worksite and legislative requirements.

- 3.5 Working platform is fitted at the required height in accordance with worksite and legislative requirements.

Outcome 4

Inspect a working platform system.

Evidence requirements

- 4.1 Working platform is inspected before and during use in accordance with worksite and legislative requirements.
- 4.2 Any faults found are reported to supervisor and rectified or system is labelled to prevent use pending repair, in accordance with worksite requirements.

Planned review date	31 December 2019

Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	18 August 2011	31 December 2016
Review	2	19 February 2015	N/A

Consent and Moderation Requirements (CMR) reference	0048
--	------

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
