-----------------------	---

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 Evidence presented for assessment against this unit standard must be consistent with safe working practices and be in accordance with applicable manufacturer's information, company requirements, industry guidelines and legislative requirements. This includes the knowledge and use of suitable tools and equipment.
- 2 Legislation, regulations and/or industry standards relevant to this unit standard include but are not limited to the Health and Safety at Work Act 2015; and any subsequent amendments and replacements.
- 3 Definitions
Company requirements refers to instructions to staff on policy and procedures that are available in the workplace. These requirements may include – company policies and procedures, work instructions, product quality specifications and legislative requirements.
Industry guidelines refers to those practices and procedures commonly used as standard procedures to produce items of acceptable merchantable quality in the industrial textile fabrication industry such as related textbook descriptors.
Manufacturer's information refers to technical information for a machine or product detailing operation; installation and servicing procedures; manufacturer instructions; technical terms and descriptions; and detailed illustrations.
Suitable tools and equipment refer to industry approved tools and equipment that are recognised within the industry as being the most suited to complete the task in a professional and competent manner with due regard to safe working practices.

Outcomes and performance criteria

Outcome 1

Identify and interpret job specifications for industrial textile fabrication.

Performance criteria

1.1 Customer requirements are identified.

Range function, price, durability, aesthetics.

1.2 Materials to be used in the job specifications are identified.

Range may include – fabrics, fittings, webbing and cordage, closures; interior, exterior, marine, commercial and industrial uses.

1.3 Any legislative requirements are identified.

1.4 Drawings are interpreted.

Range may include – pictorial sketch, general arrangement showing standard views, fabric pattern drawing, detailed construction drawings.

1.5 Job specifications are interpreted.

Range form, dimensions, materials, aesthetics, warranties.

Outcome 2

Confirm job specifications for industrial textile fabrication.

Performance criteria

2.1 Job specifications are verified with supervisor.

2.2 Misleading and unclear instructions are clarified.

2.3 Job specifications are confirmed by supervisor.
