

Title	Demonstrate knowledge of, stop and finish curved and architecturally detailed plaster board on site		
Level	4	Credits	18

Purpose	People credited with this unit standard are able to describe methods used and, stop and finish, curved and architecturally detailed plaster board on site.
----------------	--

Classification	Construction Trades > Plaster Board
-----------------------	-------------------------------------

Available grade	Achieved
------------------------	----------

Prerequisites	Unit 6119, <i>Demonstrate knowledge of, stop and finish plaster board areas on site</i> ; or demonstrate equivalent knowledge and skills.
----------------------	---

Guidance Information

1 Definitions

Access equipment, for the purpose of this unit standard, means equipment used to facilitate access to the work area, and may include ladders, working platforms, scaffolding or mechanical plant. Approved codes of practice relating to the safe operation of this equipment are available at <http://www.osh.govt.nz>.

On site refers to a wide range of building and construction environments within which trade skills are applied.

Specifications refers to documented instructions (oral, written, graphic) and may include any of the following: manufacturer's specifications, recommendations or technical data sheets; material specifications; specifications from a specialist source such as an architect, designer, engineer or a supervisor; site or work specific requirements.

Work site practice refers to the documented procedures specific to a work site, which set out the standard and required practices of that work site.

2 All work practices must comply with the following:

Health and Safety in Employment Act 1992 and Health and Safety in Employment Regulations 1995; Resource Management Act 1991; Building Act 2004; AS/NZS 2589:2007 *Gypsum linings – Application and finishing*, available from Standards NZ (<http://www.standards.co.nz>); *Approved Code of Practice for the Safe Erection and Use of Scaffolding* (Wellington: Occupational Safety and Health Service, Department of Labour, 1995) available at <http://www.osh.govt.nz>.

- 3 Credit for this unit standard indicates compliance with industry practice. *Industry practice* refers to the ability to demonstrate knowledge and skills that reflect the productivity, uniformity, finish quality and material economies currently accepted within industry.

Outcomes and performance criteria

Outcome 1

Describe methods used to stop and finish curved and architecturally detailed plaster board on site.

Performance criteria

- 1.1 Methods of stopping and finishing details are described in accordance with manufacturer's and job specifications.

Outcome 2

Stop and finish curved and architecturally detailed plaster board areas on site.

Range on site environments include – residential, commercial, industrial, multi-storey; one environment is required;
four of – bulkheads; beam, column and pillar encasements; concave surfaces; convex surfaces; openings; skylights.

Performance criteria

- 2.1 Access equipment is arranged in accordance with the Health and Safety in Employment Regulations.
- 2.2 Substrate surface is checked as fit for purpose for stopping and finishing in accordance with the manufacturer's recommendations.
- 2.3 Level of finish required is identified from job specifications.
- 2.4 Area is stopped and finished to achieve the level specified in accordance with AS/NZS 2589:2007.
- 2.5 All operations are completed, workplace and tools cleaned, and tools stored in accordance with work site practice.

Replacement information	This unit standard and unit standard 17581 replaced unit standard 4333.
--------------------------------	---

This unit standard is expiring. Assessment against the standard must take place by the last date for assessment set out below.

Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	29 August 2000	31 December 2024
Revision	2	18 May 2005	31 December 2024
Review	3	20 April 2006	31 December 2024
Review	4	25 January 2008	31 December 2024
Review	5	26 May 2022	31 December 2024
