FIRST TEXT: Makatu'unga ke te Hoko ai ko e Polisi
Criteria for Becoming a Police Officer

ASSESSOR'S
USE ONLY

Read the text on pages 2 and 3 of the Resource Booklet. Use it to answer Question One.

Lau 'a e konga tohi 'i he peesi 2 mo e 3 'o Pepa Konga Tohi'. Ngāue'aki 'a e konga tohi' ni ke tali 'a e Fehu'i 'Uluaki'.

QUESTION ONE

- (a) What are **three** characteristics a person who wants to be a police officer should have that are common to New Zealand and Tonga?

Ko e hā ha ngaahi 'ulungaanga 'e **tolu** 'oku totonu ke ma'u 'e ha taha 'oku fie Polisi, 'oku tatau ai 'a Nu'u Sila mo Tonga?

Characteristics/ 'Ulungaanga:

1. The three characteristics a person needs to become a police officer that are common to NZ and Tonga are given by the three ^{examples} ~~examples~~, one example is choose the right. Second example is good with working with the people and public. //

3. Last example is ^{be good at stopping} ~~able to speak~~ and preventing incidents. ~~more than language because NZ police~~ ~~police have to learn more than one language~~ //

- (b) If you were to be a police officer, would you rather be one in New Zealand or in Tonga? Explain the reason(s) for your choice and support your answer with information from the text. Kapau 'oku ke fie hoko ko ha polisi, te ke fie hoko ko ha polisi 'i Nu'u Sila pē 'i Tonga? Fakamatala 'i 'a e 'uhinga ki ho'o fili' pea poupuu 'i ho'o tali' 'aki ha fakamo'oni mei he konga tohi'.

Country of choice/ Fonua: New Zealand

Reason(s) and evidence/ 'UHINGA mo e fakamo'oni: I would want to be a Police Officer in New Zealand because it feels like it's the same job in New and Tonga but in Tonga the pay is \$9600 and an example from the text says that the start for Police

Officers in New Zealand is \$56000, so money is a major factor for me wanting to be a Police Officer in New Zealand because I would like to take care of my family. Both require similar qualities and attributes of a person but NZ offers more. I believe it doesn't matter where you choose to work because if you love what you do then nothing else matters. //

SECOND TEXT: *Hina Vai Inu* / Bottled water

ASSESSOR'S
USE ONLY

Read the text on pages 4 and 5 of the Resource Booklet. Use it to answer Question Two.

Lau 'a e konga tohi 'i he peesi 4 mo e 5 'o e Pepa Konga Tohi'. Ngāue'aki ia ke tali 'a e Fehu'i Ua'.

QUESTION TWO

- (a) What is the reason for the rapid growth in sales of bottled water around the world in recent years?

Ko e hā e 'uhinga ki he tupu vave hono fakatau 'o e hina vai inu' 'i māmani 'i he ngaahi ta'u ki mui' ni mai'?

The reason for the rapid growth in sales of bottled water is because of people wanting to live a healthier lifestyle. The examples from the text say that people see ads saying how clean the water is and how it helps the body so people go out and buy it. I believe

- (b) How do empty plastic water bottles damage our environment?

'Oku anga fēfē 'a hono maumau'i hotau 'ātakai' 'e he nge'esi hina vai pelesitiki'?

Empty plastic water bottles damage our environment by producing harmful gases to the air. The examples from the text suggest that empty plastic bottles release harmful gases in the air and also kills the sea life and birds because they mistake it for food. I believe the plastic water bottles are doing more ~~gas~~ bad than good for us because we are drinking water which is good but the empty water bottles laying around are going to release a gas that will potentially kill us in the future.

- (c) Explain how we can prevent the negative impacts of plastic bottles on our environment. Support your answer with evidence from the text.

Fakamatala'i mai pē 'e anga fēfē ha'atau ta'ofi 'a e ola pē nunu'a kovi 'o e hina pelesitiki' 'i hotau 'ātakai'. 'Omai ha fakatātā mei he konga tohi' ke pou pou ki ho'o tali'.

A way we can prevent the negative impacts of plastic bottles on our environment is by either encouraging people to use different kind of materials for the water bottles or increase the cost of fines for people putting littering with their water bottles.

An example from the text was to tell people to use different types of material for their water bottles and I agree with it. Water bottles are ^{worth} ~~business~~ ~~is making~~ \$157 million and businesses are enjoying the money. I believe we should encourage businesses to change from plastic to other materials like metal, or ~~anything~~ that will not harm the environment because in the long run it will contribute to helping the environment instead of damaging it.

Ko e hā 'a e ngaahi lelei 'o e nofo 'i ha sōsaleti 'oku tuifio ai e ngaahi matakali kehekehe' Fakamatala'i mai ho'o tali' pea poupou'aki ha fakamo'oni mei he konga tohi'.

The advantages of living in a multicultural society is that there are many opportunities. From the text it says how you can be a doctor, engineer, teacher and police. Also there are the jobs that people don't want to do like ^{cleaning} cleaning, look after the old and etc, and //

- (b) Do you believe multiculturalism is a success in New Zealand? Explain your answer and support with evidence from the text.

'Oku ke tui 'oku ngāue lelei 'a e tokolahi 'a e ngaahi matakali kehekehe' 'i Nu'u Sila' ni'? Fakamatala'i ho'o tali' pea poupou'aki ha fakamo'oni mei he konga tohi'.

~~I~~ I believe multiculturalism is a success in New Zealand but needs some work. The examples from the text suggest the same thing, people immigrate over to New Zealand still have the right to keep their traditions and cultural wear but the thing we still need work on is giving one the same opportunities ~~and~~ to achieve what they want in life. I believe it ~~is~~ ^{will be} a success if we worked on giving everyone the same //
