### Explanatory notes

- 1 Legislation and references relevant to this unit standard include – Health and Safety in Employment Act 1992; Resource Management Act 1991; Hazardous Substances and New Organisms Act 1996; available at <http://legislation.govt.nz>; AS/NZS 2311:2009 *Guide to the painting of buildings*; NZS 4223.1:2008 *Code of practice for glazing in buildings – Glass selection and glazing*, available at <http://www.standards.co.nz/>.
- 2 Definition  
*Worksite requirements* refer to job instructions to candidate on agreed work to be carried out.
- 3 This unit standard must be assessed against in a realistic workplace environment. The candidate must be under realistic time pressures, and use relevant commercial equipment and approved industry techniques.
- 4 Glazing is limited to residential doors and windows needing repair and maintenance. Installation is limited to 'like for like' replacement, with a maximum glass thickness of 6mm. Glazing methods are limited to putty and bead glazing with gaskets, tape or sealants.
- 5 Evidence is required of the removal and replacement of doors and door and window components on five jobs.

- 6 Fire doors are unique to a particular unit and if removed, must be reinstalled on the unit that they were removed from.

---

## Outcomes and evidence requirements

### Outcome 1

Plan and prepare to remove and replace doors and door and window components when painting and decorating.

#### Evidence requirements

- 1.1 Work instructions and operational details are obtained and confirmed in accordance with worksite requirements.
- 1.2 Safety instructions are followed in accordance with worksite and legislative requirements.
- 1.3 Signage and barricade requirements are identified and implemented in accordance with worksite and legislative requirements.
- 1.4 Tools and equipment are selected to meet the job requirements, and checked for serviceability prior to commencement of work in accordance with worksite requirements.
- 1.5 Material quantities are calculated to meet the job requirements in accordance with worksite requirements.
- 1.6 Any environmental requirements are identified in accordance with worksite and legislative requirements.

### Outcome 2

Remove doors and door and window furniture.

#### Evidence requirements

- 2.1 Screens and fittings are removed and stored in accordance with worksite requirements.
- 2.2 Window furniture is removed and stored in accordance with worksite requirements.
- 2.3 Door furniture is removed and stored in accordance with worksite requirements.
- 2.4 Doors are removed and stored in accordance with worksite requirements.

### Outcome 3

Install glass to doors and windows.

**Evidence requirements**

- 3.1 Old panes of glass are removed from doors and windows without damage to self and others in accordance with worksite requirements.
- 3.2 Right type and style of glass for replacement in keeping with the finish and purpose of a particular door or window is determined in accordance with worksite requirements.
- 3.3 Glass for replacement is sourced, measured and cut as required in accordance with worksite requirements.
- 3.4 Door or window apertures are cleaned, repaired and primed prior to installation of new glass in accordance with worksite requirements.
- 3.5 New glass is installed to specification and required finish in accordance with worksite requirements.

**Outcome 4**

Replace doors and door and window furniture.

**Evidence requirements**

- 4.1 Doors are handled, placed, hung and fixed into original place in accordance with worksite requirements.
- 4.2 Door furniture is refitted and fixed back into place to specifications and without marking door or surrounds in accordance with worksite requirements.
- 4.3 Window furniture is refitted and fixed back into place to specifications and without marking window or surrounds in accordance with worksite requirements.
- 4.4 Screens are replaced securely in position without damage to surrounds in accordance with worksite requirements.

**Outcome 5**

Clean up and store equipment used to replace doors and door and window furniture.

**Evidence requirements**

- 5.1 Work area is cleared and materials are disposed of, reused, or recycled in accordance with worksite and legislative requirements.
- 5.2 Tools and equipment are cleaned, checked, maintained and stored in accordance with manufacturer's specifications and worksite requirements.

#### Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.

#### Comments on this unit standard
