Guidance Information

1 Definitions

Access equipment, for the purpose of this unit standard, means equipment used to facilitate access to the work area, and may include ladders, working platforms, scaffolding or mechanical plant. Approved codes of practice relating to the safe operation of this equipment are available at <http://www.osh.govt.nz>.

Specifications refers to documented instructions (oral, written, graphic) and may include any of the following: manufacturer's specifications, recommendations or technical data sheets; material specifications; specifications from a specialist source such as an architect, designer, engineer or a supervisor; site or work specific requirements.

Work site practice refers to the documented procedures specific to a work site, which set out the standard and required practices of that work site.

2 All work practices must comply with the following:

Health and Safety in Employment Act 1992 and Health and Safety in Employment Regulations 1995; Resource Management Act 1991; Building Act 2004; AS/NZS 2589:2007 *Gypsum linings - Application and finishing*, available from Standards NZ (<http://www.standards.co.nz>); *Approved Code of Practice for the Safe Erection and Use of Scaffolding* (Wellington: Occupational Safety and Health Service, Department of Labour, 1995) available at <http://www.osh.govt.nz>.

3 Credit for this unit standard can be achieved on site through a registered assessor, or off site with an accredited training provider.

4 Credit for this unit standard indicates compliance with industry practice. *Industry practice* refers to the ability to demonstrate knowledge and skills that reflect the productivity, uniformity, finish quality and material economies currently accepted within industry.

Outcomes and performance criteria

Outcome 1

Describe methods used to install mouldings for plaster board work.

Performance criteria

- 1.1 Methods of installation are described in accordance with manufacturer's and job specifications.

Range PVC, metal, paper faced metal.

Outcome 2

Install mouldings for plaster board sheets.

Performance criteria

- 2.1 Type of moulding required is identified from job specifications.

- 2.2 Access equipment is arranged in accordance with the Health and Safety in Employment Regulations.

- 2.3 Mouldings are installed in accordance with manufacturer's recommendations and job specifications.

Range one of – PVC, metal, paper faced metal.

- 2.4 All operations are completed, workplace and tools cleaned, and tools stored in accordance with work site practice.

This unit standard is expiring. Assessment against the standard must take place by the last date for assessment set out below.
