### Format of the assessment

Resource materials (such as maps, text, photographs, models, graphs, tables, and cartoons) related to this year's theme will be provided in the examination. Candidates will be required to incorporate a wide range of case studies, using information and ideas BOTH from the examination resource materials and from their studies in geography. Candidates will be required to respond to questions that involve critically analysing, processing, selecting, extracting, justifying, predicting, integrating, and presenting information.

Candidates will be required to include relevant original visuals that will enhance their answers.

Candidates will be expected to demonstrate understanding of a range of geographic perspectives and to use their geographic knowledge, skills, and understanding to support their answers.

### Equipment required

Candidates are advised to bring a calculator and coloured pencils.

### Resources or information supplied

In 2024, the examination questions and resource booklet will focus on the theme of **demography in a global context**.
