### Explanatory Notes

- This achievement standard is derived from the Level 7 Communication, Language Knowledge, and Cultural Knowledge strands in the Learning Languages Learning Area of *The New Zealand Curriculum*, Learning Media, Ministry of Education, 2007; and is related to the material in the *Teaching and Learning Guide for Languages*, Ministry of Education, 2010 at <http://seniorsecondary.tki.org.nz>.
- Interact using spoken Chinese* involves communicating information, giving explanations or providing evidence to support own views and/or the views of others. Communication is achieved overall, despite inconsistencies in relation to:
  - language features
  - pronunciation
  - intonation
  - gesture
  - rhythm patterns
  - delivery speed or audibility

- stress
- tones.

*Interact using convincing spoken Chinese* involves interaction showing:

- use of a range of language that is fit for purpose and audience
- generally successful selection from a repertoire of language features and strategies to maintain the interaction.

Communication is not significantly hindered by inconsistencies.

*Interact using effective spoken Chinese* involves interaction showing:

- use of a range of language that is consistently fit for purpose and audience
- skilful selection from a repertoire of language features and strategies to maintain the interaction.

Communication is not hindered by inconsistencies.

- 3 *Interact in different situations* involves a range of culturally appropriate spoken exchanges in Chinese eg informal and formal, social, conversational, cultural, routine, and impromptu or unrehearsed contexts. Interactions could be face to face or technologically facilitated.
- 4 Interactions are characterised by:
- a genuine purpose
  - negotiating meaning
  - initiating and maintaining
  - participating and contributing
  - contextually appropriate language
  - use of cultural conventions eg courtesies, gestures
  - use of interactive strategies such as fillers, questioning, interrupting, recognising cues, agreeing and disagreeing, thanking, encouraging, apologising, pausing, prompting, seeking clarification.

Not all characteristics may be evident in one interaction.

At all times the quality of the selection of interactions, considered as a whole, is more important than the length.
