Achievement Criteria

Achievement	Achievement with Merit	Achievement with Excellence
<ul style="list-style-type: none"> Analyse statistical data relating to two contemporary economic issues. 	<ul style="list-style-type: none"> Analyse statistical data in depth relating to two contemporary economic issues. 	<ul style="list-style-type: none"> Analyse statistical data comprehensively relating to two contemporary economic issues.

Explanatory Notes

- 1 This achievement standard is derived from the first Level 7 Economics achievement objective of the Social Sciences Learning area in *The New Zealand Curriculum*, Learning Media, Ministry of Education, 2007 and is related to the material in the *Teaching and Learning Guide for Economics*, Ministry of Education, 2010 at <http://seniorsecondary.tki.org.nz>.

Further clarification of the knowledge, concepts and skills relevant to this achievement standard can be found in the *Teaching and Learning Guide*.

This standard is also derived from Te Marautanga o Aotearoa. For details of Te Marautanga o Aotearoa achievement objectives to which this standard relates, see the [Papa Whakaako](#) for the relevant learning area.

- 2 *Analyse statistical data* involves:
- processing and presenting statistical data for two contemporary economic issues to show trends
 - providing explanations of relationships in statistical data for each of the two contemporary economic issues using economic concepts and/or models

- providing explanations of inter-relationships between statistical data for these two contemporary economic issues using economic concepts and/or models.

Analyse statistical data in depth involves:

- providing detailed explanations of relationships in statistical data for each of the two contemporary economic issues using economic concepts and/or models
- providing detailed explanations of the inter-relationships between statistical data for these two contemporary economic issues using economic concepts and/or models.

Analyse statistical data comprehensively involves:

- making a justified forecast for one contemporary economic issue using extrapolated statistical data from both of the contemporary economic issues.

3 *Statistical data* in this context refers to economic statistics.

4 *Contemporary economic issues* refer to inflation, international trade, economic growth, unemployment or another issue of special interest involving the allocation of scarce resources.

5 Conditions of Assessment related to this achievement standard can be found at <http://ncea.tki.org.nz/Resources-for-Internally-Assessed-Achievement-Standards>.

Replacement Information

This achievement standard and AS91225 replaced unit standard 10930.

Quality Assurance

- 1 Providers and Industry Training Organisations must have been granted consent to assess by NZQA before they can register credits from assessment against achievement standards.
- 2 Organisations with consent to assess and Industry Training Organisations assessing against achievement standards must engage with the moderation system that applies to those achievement standards.
