

Achievement Standard

Subject Reference Geography 3.5

Title Conduct geographic research with consultation

Level 3 **Credits** 5 **Assessment** Internal

Subfield Social Science Studies

Domain Geography

Status Registered **Status date** 04 December 2012

Planned review date 31 December 2019 **Date version published** 17 November 2016

This achievement standard involves conducting geographic research with consultation.

Achievement Criteria

Achievement	Achievement with Merit	Achievement with Excellence
<ul style="list-style-type: none"> Conduct geographic research with consultation. 	<ul style="list-style-type: none"> Conduct in-depth geographic research with consultation. 	<ul style="list-style-type: none"> Conduct comprehensive geographic research with consultation.

Explanatory Notes

- 1 This achievement standard is derived from the Level 8 Geography Achievement Objectives of the Social Sciences learning area of *The New Zealand Curriculum*, Ministry of Education, Learning Media, 2007, and is related to the material in the *Teaching and Learning Guide for Geography*, Ministry of Education, 2010 at <http://seniorsecondary.tki.org.nz>.

This standard is also derived from *Te Marautanga o Aotearoa*. For details of *Te Marautanga o Aotearoa* achievement objectives to which this standard relates, see the [Papa Whakaako](#) for the relevant learning area.

- 2 *Conduct geographic research with consultation* involves:
- identifying the aim of the research
 - planning the research
 - collecting and recording data relevant to the aim of the research
 - presenting a map(s) and statistical and/or visual data
 - analysing findings
 - providing a conclusion(s) that relates to the aim of the research
 - providing an evaluation of the research process, and how this affects the validity of the research findings.

Conduct in-depth geographic research with consultation involves:

- effectively presenting a map(s) and statistical and visual data
- analysing findings, in detail
- providing a conclusion(s), in detail, that relates to the aim of the research
- evaluating in detail the research process and how this affects the validity of the research findings and/or conclusions.

Conduct comprehensive geographic research with consultation involves:

- critically analysing findings
- critically evaluating the research process by building on the detailed evaluation through a discussion of alternative research methods and their implications.

- 3 *Geographic research* refers to any fieldwork activity that has a spatial component, and that considers aspects of a natural or cultural environment, and/or the interaction of people with that environment.
- 4 *With consultation* means students will develop their own research aim(s) and research methodology and initiate discussion of these with their teacher.
- 5 Data includes primary and secondary data.
 - Primary data is collected from the field. The collection of data may be done individually or by a group. The collection of primary data includes a combination of the following methods: observing, measuring, précis sketching, photographing, surveying, using questionnaires, interviewing.
 - Secondary data may also be included but the main focus of the research is on the primary data collected.
- 6 Conditions of Assessment related to this achievement standard can be found at <http://www.tki.org.nz/e/community/ncea/conditions-assessment.php>.

Replacement Information

This achievement standard replaced AS90705 and unit standard 5094.

Quality Assurance

- 1 Providers and Industry Training Organisations must have been granted consent to assess by NZQA before they can register credits from assessment against achievement standards.
- 2 Organisations with consent to assess and Industry Training Organisations assessing against achievement standards must engage with the moderation system that applies to those achievement standards.
