### Definition of Discrimination

**Discrimination** is the *prejudicial* treatment of an individual based on their actual or perceived membership in a certain group or category, “in a way that is worse than the way people are usually treated”. It involves the group’s initial reaction or interaction, influencing the individual’s actual behaviour towards the group or the group leader, restricting members of one group from opportunities or privileges that are available to another group, leading to the exclusion of the individual or entities based on logical or irrational decision making.
