## Level 3 Geography, 2014

### 91426 Demonstrate understanding of how interacting natural processes shape a New Zealand geographic environment

9.30 am Monday 24 November 2014

Credits: Four

Achievement	Achievement with Merit	Achievement with Excellence
Demonstrate understanding of how interacting natural processes shape a New Zealand geographic environment.	Demonstrate in-depth understanding of how interacting natural processes shape a New Zealand geographic environment.	Demonstrate comprehensive understanding of how interacting natural processes shape a New Zealand geographic environment.

Check that the National Student Number (NSN) on your admission slip is the same as the number at the top of this page.

**You should attempt ONE of the questions in this booklet.**

If you need more room for any answer, use the extra space provided at the back of this booklet.

Check that this booklet has pages 2–10 in the correct order and that none of these pages is blank.

**YOU MUST HAND THIS BOOKLET TO THE SUPERVISOR AT THE END OF THE EXAMINATION.**

**TOTAL**

ASSESSOR'S USE ONLY

## INSTRUCTIONS

Choose ONE of the two questions below and answer it. Your answers must relate to a **New Zealand geographic environment** and the **key natural processes** that operate in it.

Identify your chosen question, the New Zealand geographic environment, and the key natural processes that operate in it below, then plan your response on page 3.

In your analysis:

- integrate detailed, specific information about your environment
- draw relevant detailed map(s) and/or diagram(s) on page 4, and/or integrate them throughout your written answer as appropriate.

**Spatial variation** refers to differences in environment, features and / or the way processes operate in different places or locations.

**Temporal variation** refers to differences in environment, features and / or the way processes operate in different time periods.

**Interacting processes** act together rather than in isolation from each other.

### ***EITHER: QUESTION ONE***

Comprehensively analyse **spatial** variations that have been caused by interacting natural processes in different parts of your New Zealand geographic environment.

### ***OR: QUESTION TWO***

Comprehensively analyse **temporal** variations that have been caused by interacting natural processes in different time periods in your New Zealand geographic environment.

Question number:

A **New Zealand geographic environment** that you have studied.

**Key natural processes** that operate in your chosen New Zealand geographic environment.

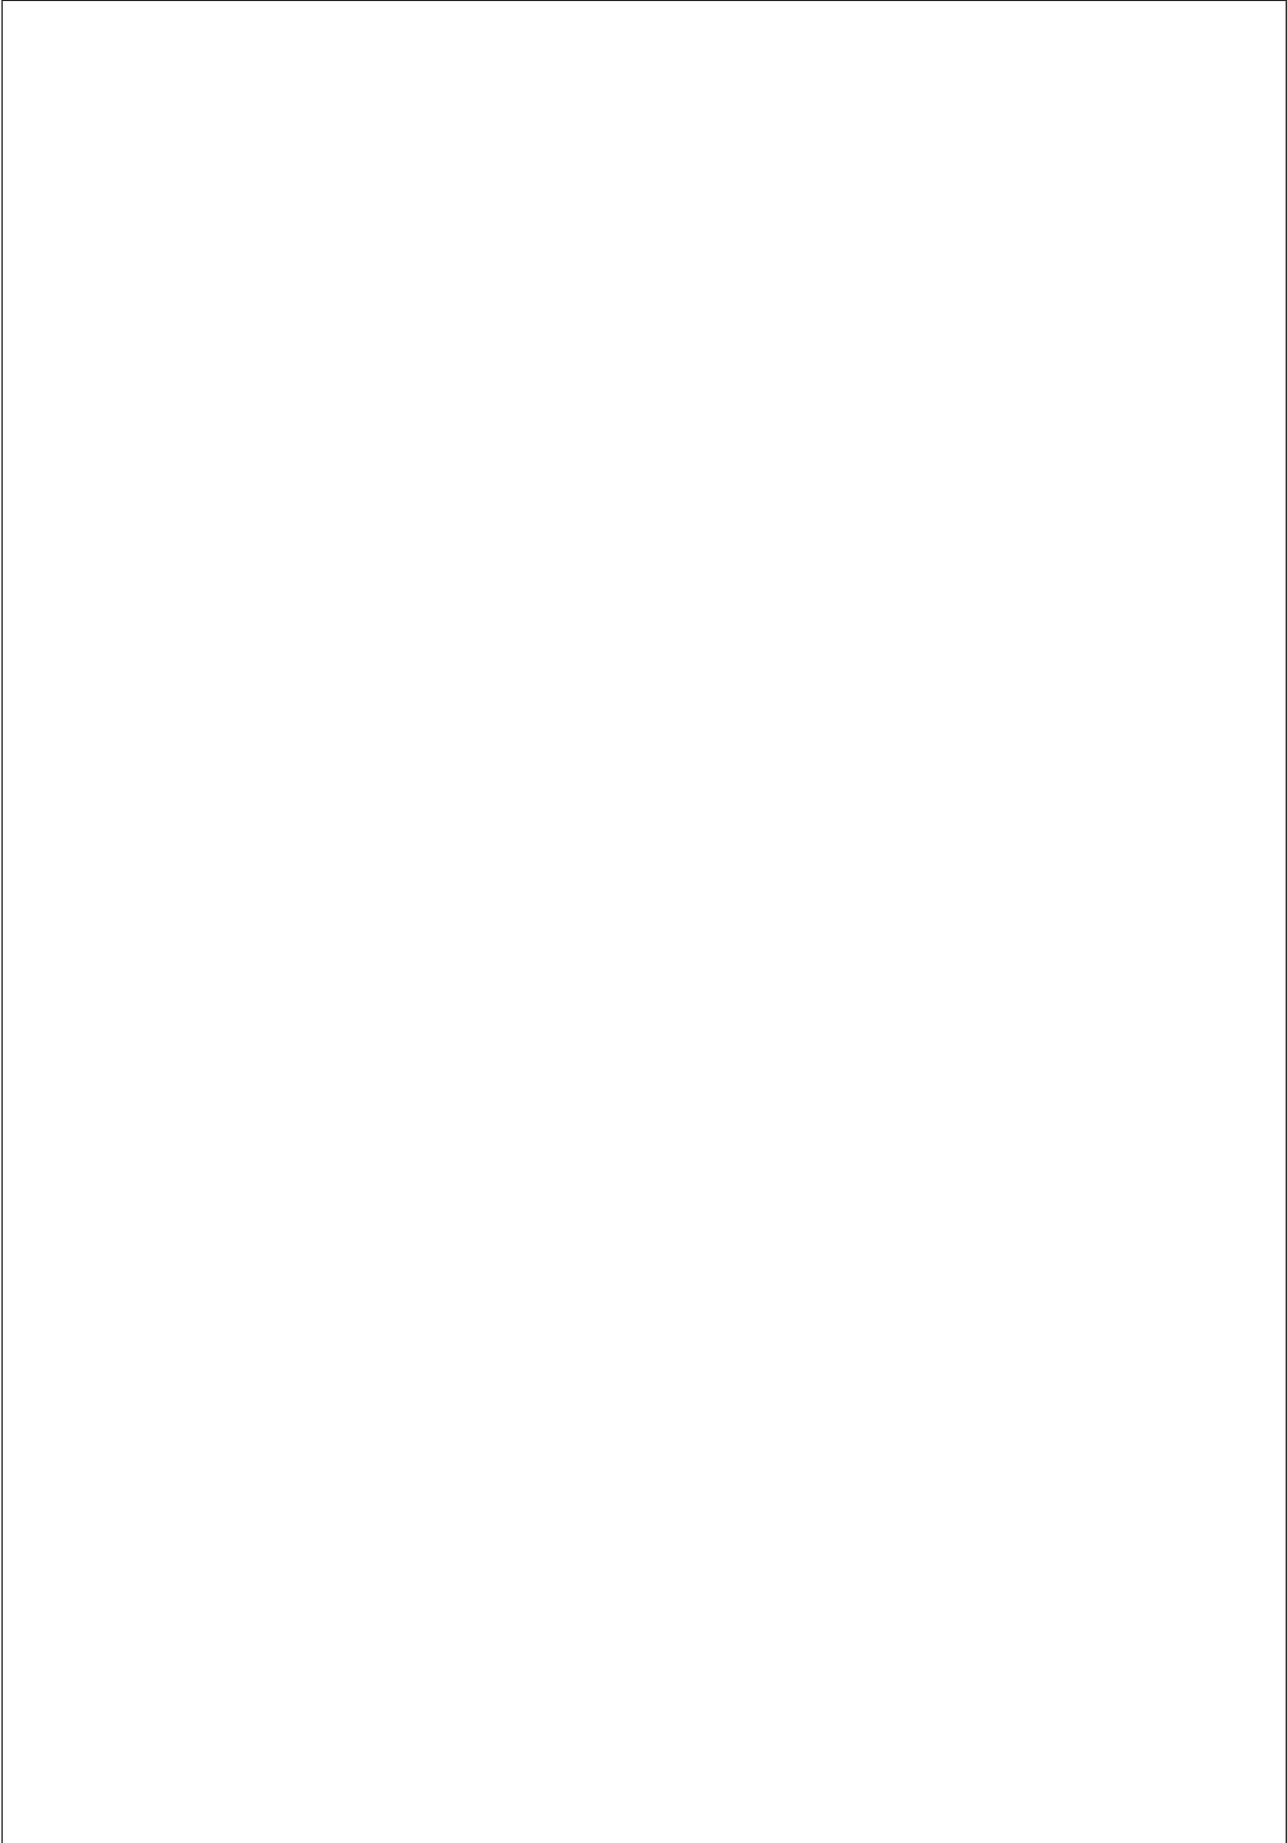

**PLANNING**

ASSESSOR'S  
USE ONLY

Draw relevant, detailed map(s) and/or diagram(s) for your chosen question here:
