Level 2 Health, 2016

91235 Analyse an adolescent health issue

2.00 p.m. Monday 28 November 2016
Credits: Five

Achievement	Achievement with Merit	Achievement with Excellence
Analyse an adolescent health issue.	Analyse in depth, an adolescent health issue.	Analyse comprehensively, an adolescent health issue.

Check that the National Student Number (NSN) on your admission slip is the same as the number at the top of this page.

You should attempt ALL parts of the question in this booklet.

Pull out Resource Booklet 91235R from the centre of this booklet.

If you need more room for any answer, use the extra space provided at the back of this booklet.

Check that this booklet has pages 2–8 in the correct order and that none of these pages is blank.

YOU MUST HAND THIS BOOKLET TO THE SUPERVISOR AT THE END OF THE EXAMINATION.

TOTAL

ASSESSOR'S USE ONLY

INSTRUCTIONS

In this examination, you are required to analyse the adolescent health issue of **drug use**.

Read **Resource Booklet 91235R** before answering the question in this booklet. Refer to the resource material and the information given in the scenario, as well as your own knowledge, to support your analysis when answering (a) to (c).

QUESTION

Felix’s Scenario

Felix is in Year 12 at a large co-educational high school in a big city. He lives at home with his parents. His older brother Jacob has recently moved out of home.

Felix is keen to stay at school next year, but his NCEA grades are not great. He is planning on finishing Year 13 and then doing a pre-trade course to get a building apprenticeship.

Most weekends, Felix parties with his friends at someone’s house, and admits himself that he is a binge drinker, usually consuming large amounts of beer.

Felix and some of his friends are attending his brother’s 21st birthday party next weekend, and want to try some legal highs. Felix decides to purchase some synthetic cannabis at the corner dairy that sells it ‘under the counter’. The store displays a sign saying that it does not sell synthetic drugs, although lots of students at Felix’s school know otherwise. Felix has no trouble buying the drugs from the dairy to take to the party.

At the party, the group of friends have a few beers each, and then decide to head outside to try the synthetic cannabis. They pass around the cannabis joints and inhale the smoke. Felix begins to feel dizzy after a few puffs, then he collapses, and someone calls an ambulance.

- (a) Explain how **personal**, **interpersonal**, and **societal influences** could encourage Felix to try synthetic cannabis.

- (b) Explain the **short-term** and **long-term consequences** of using synthetic cannabis on the well-being of Felix, his friends, and the community.

Ruled lines for writing.
