Read the background information below and in the other boxes about *Waiti Enterprises*. You can use this information to answer parts (a), (b), and (c) of the task.

BACKGROUND INFORMATION

The mission of *Waiti Enterprises* is to make space affordable by producing rockets for businesses to use in their operations – for example to launch satellites for GPS tracking.

The rocket components are produced at different locations globally. Both the New Zealand head office and the launch location are at Manaia in Taranaki.

Waiti Enterprises has a very talented and loyal staff who are encouraged to be involved in the innovations by the CEO.

One process innovation that *Waiti Enterprises* has recently introduced is the use of a specialist 3D printer in one part of the production process. This means that the rockets' launching systems are constructed faster and with no quality issues.
