Level 3 Geography 2025

91426 Demonstrate understanding of how interacting natural processes shape a New Zealand geographic environment

Credits: Four

Achievement	Achievement with Merit	Achievement with Excellence
Demonstrate understanding of how interacting natural processes shape a New Zealand geographic environment.	Demonstrate in-depth understanding of how interacting natural processes shape a New Zealand geographic environment.	Demonstrate comprehensive understanding of how interacting natural processes shape a New Zealand geographic environment.

Check that the National Student Number (NSN) on your admission slip is the same as the number at the top of this page.

You should attempt BOTH parts of the question in this booklet.

If you need more room for any answer, use the extra space provided at the back of this booklet.

Check that this booklet has pages 2–11 in the correct order and that none of these pages is blank.

Do not write in the margins (//////). This area will be cut off when the booklet is marked.

YOU MUST HAND THIS BOOKLET TO THE SUPERVISOR AT THE END OF THE EXAMINATION.

QUESTION

Name a New Zealand geographic environment to use to answer both parts of the question:

- (a) Use the space on page 3 to draw an annotated map(s) and/or diagram(s) of your environment to explain how interacting natural processes have shaped ONE natural feature.
- (b) Analyse how interacting natural processes operate in your environment to shape a **second, different**, natural feature from that identified in part (a).

Your response to part (b) should include:

- the name of your **second** natural feature – this must be different from the feature in part (a)
- how natural processes operate and interact to create and shape this **second** natural feature
- integrated comprehensive supporting case study evidence.

Begin your response to part (b) on page 4. You may use the space below to plan your response.
